

FOR ARFARE TO GET NEW TRIAL

Conviction of William K. Hale for Murder of Indian Set Aside.

The United States Circuit Court of Appeals today reversed the conviction of William K. Hale, wealthy ranchman of Fairfax, Ok., known as "King of the Osage Hills," who was sentenced to life imprisonment at Leavenworth in October, 1926, when found guilty of aiding and abetting the murder of an Osage Indian on whose life he held an insurance policy for \$25,000.

The case is remanded for trial.

Hale was tried and convicted with John Ramsey, who had confessed before the trial that he killed Henry Roan, Osage brave, following an agreement with Hale that the latter would give him \$500 in cash and a new Ford.

Ramsey repudiated his confession at the trial, but was convicted. The court of appeals, in the opinion written by Judge Van Valkenburgh, contended that "Osage King" should have been granted a severance, because Ramsey's confession, while binding on the man who made it, should not have been introduced as evidence at the trial of Hale, and it was therefore prejudicial to Hale's interests.

The court of appeals overruled the allegation of error by the defense to the effect that the trial judge was prejudiced.

BIRTHPLACE OF LINDBERGH PROTECTED BY COURT WRIT

Judge Issues Order Restraining Motors Converting Horse Into a Mule.

DETROIT, Mich., March 27.—A temporary order restraining occupants of a house here where Charles A. Lindbergh was born from converting the property into a "Lindbergh museum" was issued yesterday by Circuit Judge Arthur Webster.

Mrs. Jewett, who said she was buying the property, against William H. Hicks, to whom she said she leased it for a period of one year beginning last Nov. 1.

Mrs. Jewett, in her petition, said that Hicks, in violation of his lease, had subleased the house to Sherman J. Yarik and Winifred Yarik, who with Clark C. Dougherty, a Chicago promoter, plan to turn it into a museum and charge admission, selling Lindbergh souvenirs.

STOCK TIED UP

Grove Park Inn Goes for More Than \$1,000,000—Other Properties Offered.

Heirs of the late E. W. Grove, multimillionaire drug manufacturer, have begun to dispose of the large resort holdings at Asheville, N. C.

FIVE ROBBERS AND BURGARS SENTENCED TO PRISON TERMS

Man, Who Confessed to 20 Hold-ups Because of Unemployment.

Arthur Fleckenstein, who confessed, when arrested last month, that he had committed more than 20 hold-ups because he could not obtain work, today received sentences totaling 10 years when he pleaded guilty of two filling station holdups and an attempted assault on a woman.

SERVICE CAR FARES CUT

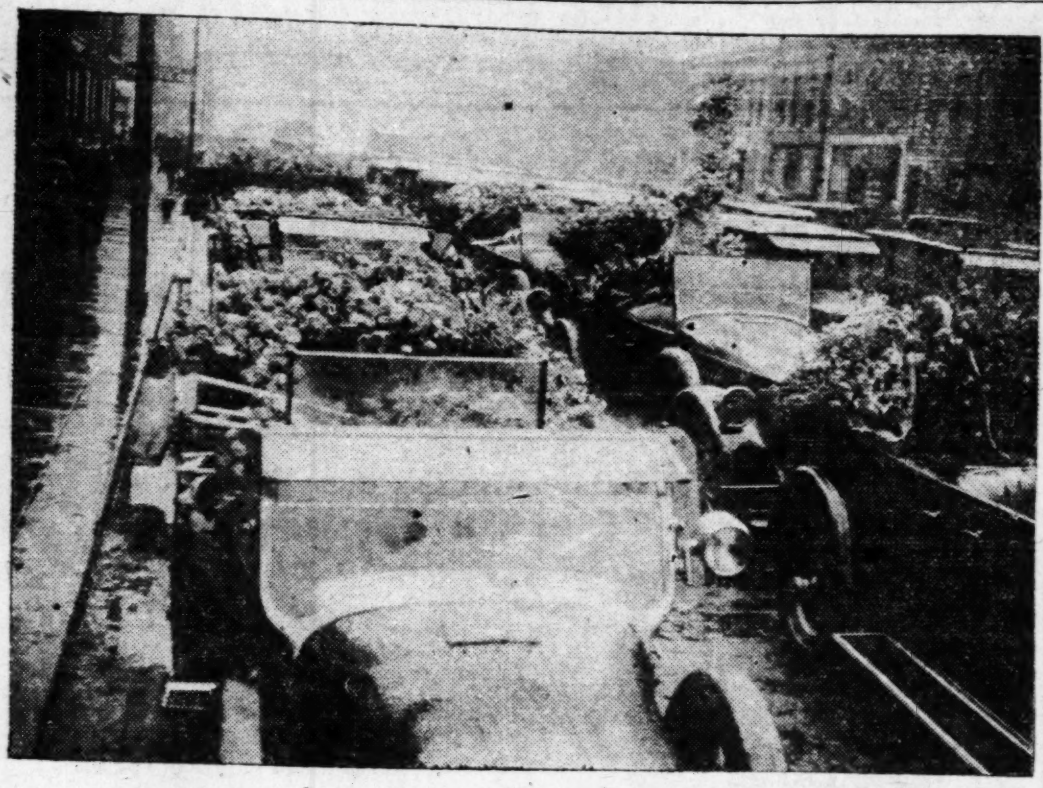

15 Cent Rate on Washington-Delmar From 10 a. m. to 4 p. m.

A drop in price to 15 cents a passenger was made today by 50 service car drivers on the Washington-Delmar line, the new rate to apply only from 10 a. m. to 4 p. m. During the morning and evening rush hours the old rate of a quarter will be in effect.

ROBINSON NOT A CANDIDATE

McCROY, Ark., March 27.—Senator Joe T. Robinson of Arkansas is "not a candidate" for the presidential nomination, and is therefore "not in a position to invite or request endorsement for this high honor," said a telegram received from him by the Civic League of August and made public today. The league, comprising 60 women, recently wrote Senator Robinson, advising him they were endorsing him for the presidency and asking his stand on prohibition. His telegram said: "I have uniformly supported prohibition measures and advocated their good faith enforcement."

CALIFORNIA FLOOD SITUATION BETTER

Waters Receding but Hundreds of Persons Are Driven from Homes.

SAN FRANCISCO, Cal., March 27.—The flood in Central California and Western Nevada receded somewhat today, leaving vast areas of wreckage and partly inundated homes.

Reno, Nev., which had been threatened during the early morning hours by a new rise in the Truckee River, escaped further inundation and the likelihood of further high water seems past.

City and State authorities fed several hundred homeless persons at North Sacramento, Cal., this morning as men, women and children awoke in their temporary refuges in theaters, lodge rooms and churches. About 200 dwellings were flooded in North Sacramento. Officials there are checking reports that several persons are missing.

At midnight the town of Biggs, Cal., was under 14 inches of water when the flood gates of the Sutter-Butte canal system were opened to save that waterway from destruction.

At Oroville, 50 families were made homeless when the Feather River went over its banks flooding the west end of that community and 200 families were driven from their homes at Alicia, three miles south of Marysville. Workmen strengthening the levee were forced to flee.

The United States plant introduction gardens as well as the State land colony, near Durham, were flooded by Butte Creek, a tributary of the Sacramento River. At the land colony hundreds were forced to flee from their homes. Transportation by rail and water north of Sacramento was badly crippled. Oroville was completely shut off when the Western Pacific Railroad was forced to re-route trains over the Southern Pacific and the Sacramento Northern, an electric system, was forced to suspend service to all upper valley points.

Along the Russian river, trains were stalled, sections inundated, wires were down and waters of the river were rising as the result of heavy rains yesterday. Eureka reported that rivers in that region were bank full with numerous slides occurring in the Eel River canyon, delaying trains.

Slides along the line of the Redwood highway paralleling the railroad also closed that artery of travel to the north.

The Mokelumne and Stanislaus rivers in the Upper San Joaquin valley were out of bounds in several places, inundating thousands of acres of orchard property. The property damage in that area was estimated at \$250,000.

CHECKING OVER FIRE LOSS AT BARNARD STATIONERY CO.

The estimate of \$25,000 placed by Fire Chief Alt yesterday on the damage done by a fire in the plant of the George D. Barnard Stationery Co. at 3345 Laclede avenue is probably too low, A. B. Lewis, president of the concern, says. Lewis declined today, however, to make any estimate of the loss until a thorough check had been completed. The fire started at 12:50 p. m. in a stockroom on the west side of the expansion two-story plant. Charles Erosius, engineer who discovered it, sounded the plant fire alarm and 250 men and women preparing to return to work at the close of the luncheon hour, left the building without disorder. Firemen summoned by a general alarm had the fire under control in an hour.

Boric Acid Good—But Not Enough

We recommend Irid, America's Eye Bath, because we know it is such a vast improvement over the time honored eyewash of plain boric acid.

Irid contains camphor, menthol, witch-hazel, boric acid, and pure distilled spring water, all sterilized and put into sealed sterile flasks.

Irid does three definite things for you. It makes your eyes sparkle and look alive and vivacious. It cleanses the corners, the tear ducts and under the upper and lower eyelids. It relieves soreness and inflammation.

If you will try one bottle of Irid we know you will realize its virtues. All of our stores are instructed to refund your money if you are not thoroughly pleased. Both the 50c and the 95c size come complete with handy eyecup. Try Irid today.

SEARCH EXTENDED FOR AGED CRONY OF MURDERED MAN

Police of Cincinnati and New York Asked to Join in Hunt for Charles Heinemann, 80.

Police in New York and Cincinnati have been asked to join in the search for Charles Heinemann, 80-year-old recluse, wanted as a material witness in the murder of his friend, Frank Hammerle, well-to-do bachelor, whose body, with a bullet hole in the head, was found Saturday in an abandoned cistern at Heinemann's East St. Louis home.

Heinemann announced he was returning to his native Germany, by way of Cincinnati and New York, when he appeared last Wednesday at the Stockyards National Bank to withdraw his savings of \$636.75. He wanted cash, but the bank thought a draft would be safer, and he agreed, asking that the draft be made on the Hanover National Bank in New York. An estate of more than \$23,000 was left by Heinemann. He was learned yesterday when his safe deposit box in the Union Trust Co. of East St. Louis was opened. The estate includes savings certificate or \$6900 in the Southern Illinois National Bank, and \$6400 in the First National Bank, \$3700 savings account at the Union Trust Co., and \$4600 in bonds.

Robbery apparently was the motive for the murder of Hammerle, as he was reputed to carry large sums on his person.

On Thursday night—when the murder is supposed to have taken place—Edward Crissup, 726 Collinsville avenue, went to Heinemann's shack, seeking to hire Hammerle, a house painter, who stayed with Heinemann at intervals. Crissup said he knocked on the door and got no response, but finally a man called out: "Who's there?" refusing to say any more or admit Crissup. Crissup tried the door, found it barred, and went away.

Heinemann was seen in his yard the following morning. Hammerle, who was 55 years old, will be buried tomorrow in Mount Hope Cemetery in a lot purchased

by the Public Administrator, who has taken charge of the estate. Hammerle's only known heir is a brother in Germany. Hammerle came to this country from Germany at the age of 15. During the war he and Heinemann were listed as enemy aliens.

Rich in healthful sunshine

That's why good butter
makes children thrive and grow

Give your children plenty of good, pure butter—butter rich in the life-giving vitamins A and D—and they will grow faster, weigh more and offer greater resistance to rickets, anemia, colds and other childhood diseases.

Fortunately, Nature has captured and concentrated in good, pure butter a great fund of the precious health rays of sunshine. As a result, scientists tell us, good butter is rich in these vitamins A and D. As a further result, good butter enables your children to have these health substances at every meal.

In Blue Valley Butter these life-giving elements are abundantly found. For in making Blue Valley every scientific precaution has been taken to retain all the vital health factors.

Years of scientific work by Professor Otto F. Hunziker, in the famous Blue Valley Research Laboratories, together with careful selection and thorough pasteurization of all cream, account for Blue Valley's delightful flavor and pronounced health qualities. Sold only in triple-wrapped packages.

LINDBERGH TAKES 1100 ON FLIGHTS IN WEEK

Again Withdraws From Public Eye After Carrying Congressmen and Diplomats Aloft.

By the Associated Press.
WASHINGTON, March 27.—Col. Charles A. Lindbergh withdrew from public focus today, weary of jostling and admiring masses, decoration ceremonies and constant formal affairs in his honor.

Ever since his trans-Atlantic nonstop flight, 19 months ago from New York to Paris, Lindbergh had been feted and honored until it seemed his tall but frail physique must crack under the strain. But today, after one of the busiest aerial acts of his career, he appears in perfect health, and wants to be let alone to work out his plans. He can stand the crowds a little, so long as they don't "push me around."

His Plane Tuned Up.
Lindbergh doesn't know what he's going to do just yet. His airplane was tuned up today at Bolling Field to take him wherever he desires, but he wants no reporters around when he takes off.

The Colonel wound up his six-day propaganda school in aviation at the local army station yesterday by taking aloft more than 200 members of the Washington diplomatic corps and their friends, the majority of whom represented the Pan-American countries which Lindbergh recently toured.

Taken up in 11 groups, they brought the flyer's total passengers in six days to approximately 1100. In all, 110 flights were made, averaging 15 minutes each, at a speed of 90 miles an hour, and covering about 2400 miles over Washington and nearby Virginia.

Attends Smoker With Buddies.
Wearing a light gray suit and no hat, Lindbergh went about his flying seriously yesterday. In contrast to those of the high hats and spats with whom he mingled all day, the "Lone Eagle" spent his last evening in the public eye attending a smoker given by the enlisted men at Bolling Field. There he ate ham sandwiches, cheered boxing bouts and chatted with mechanics.

He went directly to the smoker after landing from his twenty-second flight of the day. He announced that that was the last of the series of aerial tours he began last week for members of Congress and extended yesterday to the diplomats and their society friends in Washington.

CONSIDER YOUR THROAT

WOULD REVAMP SCHOOL SYSTEM OF AMERICA

Walter Lippmann of New York World Discusses Dayton and Chicago "Inquisitions."

Special to the Post-Dispatch. CHARLOTTESVILLE, Va., March 27.—Walter Lippmann chief editorial writer of the New York World, who is 1928 Page-Barbour lecturer at the University of Virginia, began last night what he termed "a drastic examination" of the American system of public schools which, he said, "produced servility of mind on a large scale." He is giving a series of three public addresses here in Madison Hall on the general subject of "American Inquisitions: A Commentary on Dayton and Chicago."

Lippmann began by saying the American people have become so completely debauched that "we not only refuse to mistake make-believe for reality but we even insist upon treating reality as make-believe."

"The real energies of the enterprising members of my profession have recently gone into the selection, the creation, the staging and the ballyhooing of one great national act after another. Sometimes it is a sordid act. Sometimes, as in the Lindbergh idyll, it is a beautiful act. What matters is that it should never be a dull act."

Scopes and McAndrew. "Among the events in which the modern art of ballyhoo has been practiced there are two at least which are not likely to be forgotten soon. The world laughed at them, but it has not yet laughed them off. For they are symbols and portents. I refer to the trial of John Scopes at Dayton and to the trial of William McAndrew in Chicago."

"I hardly need tell you that Dayton and Chicago are exceptional only in the amount of attention they have received. They are not unique. They are merely episodes of a wide conflict between scholarship and popular faith, between freedom of thought and popular rule, which irritates American politics with deep discords."

"I am inclined to think Dayton and Chicago are landmarks at which it is profitable to pause and ask ourselves whether the theory of liberty which we inherit is adequate. I do not find it adequate. My own experience has convinced me that while the wit and intelligence of a community are opposed to these clerical and patriotic inquisitions, there exists no logically consistent philosophy of liberty with which to combat them."

Beginning of Struggle. "Wherever two or more groups within a state differ in religion or in language or in nationality, the immediate concern of each group is to use the schools to preserve its own faith and tradition. For it is in the school that the child is drawn toward or away from the religion and patriotism of parents."

"Within our time criticism and skepticism have succeeded in shaking the whole legendary creed of patriotism and in the chaos which has followed a variety of patriotic sects have appeared, each contending that it alone expressed the true American religion."

"If I read the signs rightly we are at the beginning of a period of intense struggle for the control of public information."

FLOOD CONTROL LEGISLATION UP IN SENATE TOMORROW

Debate on Jones Bill Is Expected to Take About a Week; Many Differences Removed.

By the Associated Press. WASHINGTON, March 27.—Senate leaders plan to give flood control legislation the right-of-way in the Senate tomorrow with the Jones bill facing a fairly clear road to an early vote.

Meanwhile, the Norbeck bill to establish migratory bird refuges is still before the Senate and apparently has encountered the first snafu of the session. Senator Blaine, (Rep.), Wisconsin, held the floor against the measure for a second day yesterday, condemning it as an invasion of state rights. It a vote is not reached today, Norbeck, is expected to yield to the flood control measure.

Discussion of the flood bill is expected to consume more than a

Pimples on Face and Neck

Burned Constantly, Caused Disfigurement, Cuticura Heals.

"My face and neck began to break out with pimples and blackheads. The pimples were hard and red and caused my face to be disfigured. They burned constantly and when I scratched them it made them worse and they festered."

"I read an advertisement for Cuticura Soap and Ointment and sent for a free sample. My face looked so much better after using it that I purchased more, and in two months I was healed." (Signed) Miss Roberta Kern, 118 Wolfe Creek St., Brookville, Ohio, Aug. 13, 1927.

Cuticura Soap, Ointment and Talcum are all you need for all toilet uses. Soap to cleanse, Ointment to soothe, Talcum to powder.

Sole U. S. Distributors: The J. C. Feltman & Curme Co., 426 North Sixth St., St. Louis, Mo. Cuticura Soap, Ointment and Talcum are all you need for all toilet uses. Soap to cleanse, Ointment to soothe, Talcum to powder.

Woman So Nervous Stomach Won't Work

"I had gas so bad I thought I would choke. I was so nervous food wouldn't digest. I took Adlerika, and it has done wonders for me."—Mrs. T. Derosa.

The simple mixture of buckthorn bark, glycerine, salina, etc. (known as Adlerika), has a most surprising DOUBLE action. First, it acts on BOTH upper and lower bowel (most medicines act on lower bowel only) and removes foul matter that often poisons the system for months. Second, Adlerika clears all GAS and sourness from stomach and bowels, bringing INSTANT relief from stomach trouble. And in addition, Adlerika removes metabolic poisons which cause neuritis, rheumatism, etc.

Dr. H. L. Shoup, New York, writes: "Adlerika, in addition to its intestinal cleansing, checks the growth of intestinal bacteria and bacilli." Dr. J. Weaver, "In my 50 years' practice, I have found nothing to excel Adlerika."

It will astonish you the great amounts of poisonous matter Adlerika brings out—matter you would never believe was in your system. In chronic constipation, gas bloating, sour stomach and sick headache, just ONE spoonful Adlerika brings wonderful relief. At leading druggists. Sold in St. Louis by Wolff-Wilson Drug Stores and other druggists.

BRITISH PLAN FOR NAVY REDUCTION PUBLISHED

Limitation of Gun Caliber on
Battleships Made Chief
Issue in Proposal.

By JOHN L. BALDERSTON,
London Correspondent of the Post-
Dispatch and New York World.
Copyright 1928 by the Press and Politics
Publishing Co. (The New York
World and Post-Dispatch.)

LONDON, March 27.—Lord
Cushendun's suggestion of reduction
in the size of battleships is
printed without comment by prac-
tically all newspapers here and
has not aroused public interest.
In official circles, one gathered
that the proposal is regarded as
merely one of the features of the
British plan brought forward at
last summer's naval conference,
but never reached because of a
breakdown of the cruiser question.
It was put forward now because
Congress suggested the President
summon a new naval conference
and because it was thought wise
in the impasse at Geneva last week
to give other powers proof of Brit-
ain's reasonableness on disarmament.

A British naval expert admitted
the 13½-inch gun, to which Brit-
ain wants future battleships re-
stricted, is considerably superior to
any weapon of its caliber in the
world. The expert added the Brit-
ish Admiralty raised the question
thus early in order to permit Amer-
ican and Japanese designers, if the
caliber limit is favored to have
plenty of time to design equally
powerful guns of this size.

It is suggested that tentative
plans for battleships replacing
those authorized under the Wash-
ington treaty are already being
drawn up in all three countries.
The Admiralty recognizes caliber
limitation would have no chance
of adoption unless the proposal is
made long before the building of
new battleships commences three
years hence.

Fifteen new battleships are to be
built by the United States and the
same number by England between
1931 and 1935.

Proposal Made as Contribution to
League's Disarmament Program.

GENEVA, March 27.—The Brit-
ish proposal for further capital
ship limitation, made as the pre-
paratory disarmament commission
was in its last session, was intend-
ed only as "a contribution to the
League's preparatory disarma-
ment," British delegates explained.
It was exactly the same proposal
as was made early in the tripartite
naval conference here last sum-
mer and rejected by the United
States. The British delegates ex-
plained that they offered it again
only as a suggestion to be incor-
porated in later discussions of the
League's commission. They also
said the French are changing their
view on giving each nation a cer-
tain tonnage to be used as it sees fit
and will accept limitation by class-
es when the commission meets
again.

TROLLEY DIRECTORS REELECTED

St. Louis Public Service Co. Stock-
holders in Annual Session.
Directors of the St. Louis Public
Service Co., which operates the
street railways, were re-elected in
the annual stockholders' meeting
today.

The directors will meet within
two weeks for election of officers.

Aims to Live 100

Keeps Youthful Fires Burning With
Rare Remedy.

H. H. Von Schlick, manufacturer
of Pittsburgh, Pa., tells how at 60
he feels as young as he did at 30.
I use a remedy called Bulgarian
Herb Tea, which I take at least
once each week, and it not only
keeps me healthy, but gives me the
Power and Vigor of Youth.

Persons who suffer with constipa-
tion, rheumatism, sour, gassy
stomach, intestinal poison or impure
blood should use this pure vegetable
remedy. It really is wonderful how
soon you begin to feel years younger,
and it costs so little at any drug
store.

Why, just to break up a bad cold
quickly, Bulgarian Herb Tea is
worth ten times its price. The rich
herb juices, taken hot at bedtime,
heat the chilled blood, stimulate the
circulation and cast the intestinal
poisons out of your system.

EVERYBODY fears YOUR COUGH

—and so should you, for it is
often infectious and dangerous
to those around you.

A safe and agreeable way to
relieve coughs is to take
PERTUSSIN, which has been
used for twenty years in the successful
treatment of harsh or painful coughs—
even the most severe. PERTUSSIN
is entirely free from "dope" or harmful
drugs, yet it brings quick relief by help-
ing Nature to expel the sticky phlegm
that often clogs the air passages.

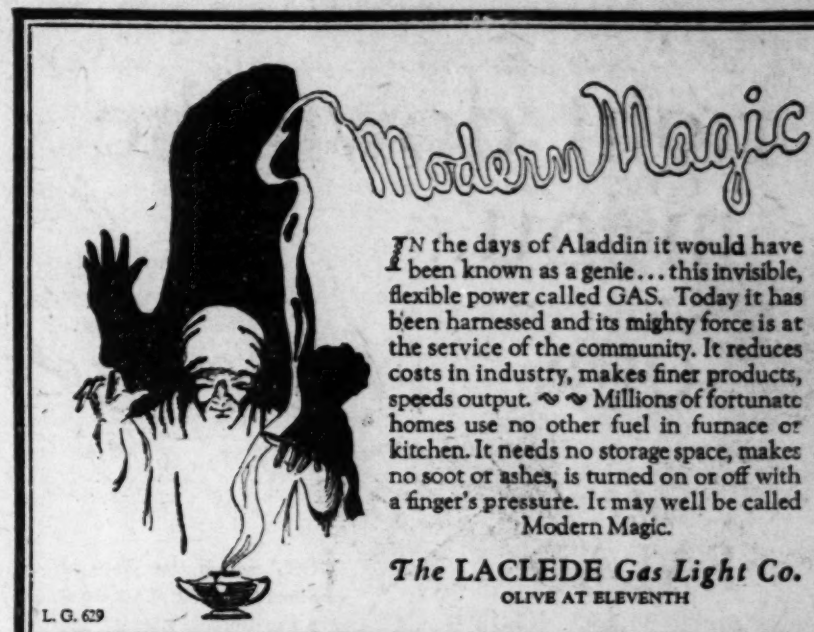

Sold by all druggists in
large and small bottles.

PERTUSSIN
Safe for
Every Cough

Kellogg's
CORN FLAKES

Extra, extra crisp!

IN the days of Aladdin it would have
been known as a genie... this invisible,
flexible power called GAS. Today it has
been harnessed and its mighty force is at
the service of the community. It reduces
costs in industry, makes finer products,
speeds output. Millions of fortunate
homes use no other fuel in furnace or
kitchen. It needs no storage space, makes
no soot or ashes, is turned on or off with
a finger's pressure. It may well be called
Modern Magic.

\$250,000 Fire at Latrobe, Pa.
By the Associated Press.
LATROBE, Pa., March 27.—Fire which for a time threatened the business district of Latrobe, was

brought under control after a four-hour fight by firemen today. The total loss was estimated at \$250,000. Fanned by a high wind, the flames starting in a dairy com-

pany building, leaped across the street and destroyed a department store, a garage housing 50 automobiles, a furniture store and adjoining buildings.

SMITH DEMANDS PUBLIC APOLOGY FROM SENATOR NYE

"Insult to Suggest That I Submit Without Resentment to False and Unjust Statement."

By the Associated Press.
ALBANY, N. Y., March 27.—Gov. Al Smith, in a letter last night to Chairman Gerald P. Nye of the Senate Teapot Dome Committee, suggested that the Senator apologize publicly for alleged false statements made on the floor of the Senate regarding campaign funds received by the Governor from Harry F. Sinclair.

"It is an insult to the public intelligence for you to suggest that in order for me to submit the proper purposes of a Senate committee," the Governor wrote Senator Nye, "it is necessary for me to submit without resentment to a false and unjust statement from you. You made this statement, you admitted you made it and you publicly stated that I had demonstrated its falsity."

"The next step for you to have taken was a letter of apology and not a tirade of abuse," Smith said. "Reminding the Senator that 'the chairmanship of a Senate committee exempts no man from the obligation not to make reckless and irresponsible statements,' the Governor declared that 'you now have the audacity to charge that because I resented your false statement about me, I am undermining public confidence in your committee.'"

"I yield to no man in my admiration for your committee's work," said the Governor, "and for its distinguished leading counsel, Senator Walsh, or in desire to expose and punish all connected with the corruption unearthed by your Teapot Dome investigation."

Smith quoted newspaper dispatches which credited Senator Nye with saying, after he had read the Governor's reply, that "it is a good flat statement that anyone ought to be able to accept as final."

"You there showed a proper attention to right a wrong committed by you," the Governor continued. "Apparently something has happened to turn you aside from this impulse and you now have the audacity to charge that because I resented your false statement about me, I am undermining public confidence in your committee. Let me remind you that the chairmanship of a Senate committee exempts no man from the obligation not to make reckless and irresponsible statements."

"You say that my letter to you is the first condemnation uttered by me of the oil scandals which has come to your notice. For your information, let me say that I spoke frequently throughout New York State and elsewhere in condemnation of the oil scandals in the campaign of 1924."

AVOID DIZZY SPELLS

Never well. Always tired and fagged out. Beatty tossed away by neglect. To be beautiful and to keep youth the system must be free from poisonous backwash of constipation which often causes dizzy spells. For 20 years, Dr. F. M. Edwards gave his patients, in place of calomel, a compound of vegetable ingredients mixed with olive oil. Naming them Dr. Edwards' Olive Tablets. Known by their olive color. They free the system of poisons that ravage health, energy, beauty.

You need never have hollow complexion, dull eyes, coated tongue, throbbing headaches—all signs that your bowels are clogged, liver is torpid. Take Dr. Edwards' Olive Tablets nightly. They act smoothly and without griping. How much better you'll feel and look! Everywhere wise men and women who know the value of good health take Dr. Edwards' Olive Tablets. All druggists, 15c, 50c and 80c.

SAUME BENGUE

SAUME BENGUE (pronounced Bay-Gay) quickly relieves the knife-like pain or "crick" in the back due to lumbago or sacro-lumbar disturbance. Its penetrating quality stimulates circulation, lessens congestion and soothes the irritated nerves. Its exceptional pain-relieving properties bring immediate comfort. Good for any kind of backache. Excellent for any rheum or pain. Insist upon the original.

SAUME BENGUE

SAUME BENGUE ANALGESIC

Stop Pain!

—or you pay nothing!

Here is a vital truth. Practically all painful ailments are due to excessive acid in the cells of the body. These ailments in particular:

Rheumatism
Sciatica
Arthritis
Neuralgia
Neuritis
Lumbago
Insomnia
Headache

A scientific way has been discovered to free these cells of these acids, or poisons, which cause you pain. A simple, pleasant way that works like magic. Results show in an amazingly short time—worst pains relieved in 33 minutes, or less. Without drugs, opiates or medicines.

This new way is an electro-magnetic blanket known as the VIT-O-NET. Twelve hundred of the foremost hospitals and clinics use and recommend it.

FREE! The VIT-O-NET book, "Awake the VIT-O-NET treatment plan for home use—will be sent to you on receipt of this coupon."

CHARLES L. HEALY (St. Louis Office)
Dept. 16-P-D, 428 American Trust Bldg., St. Louis, Mo.

SEND COUPON BELOW

Free! Large Aluminum Dessert Mold...

For a Change---

Serve This New Dessert

from California

Dainty and Delicious. Flavored with true western fruits. Order three packages today—then take advantage of gift offer in coupon below.

CALIFORNIA'S gem of all desserts—is now here! Fix its name firmly in your mind—Jell-well.

Already thousands of St. Louis families have adopted it as their favorite dessert. Once you try it Jell-well will have your preference, too.

Saves Time

This new dessert is quickly prepared—so gives you more time for other things. You merely add boiling water—then set aside to cool.

Soon Jell-well is ready to serve—a complete success. Jell-well ALWAYS jells WELL. For that alone it is famous.

Hold Jell-well to the light. Note its pure transparency. How much better it looks on your table. Even more beautiful if you make it in the mold shown above.

You'll find Jell-well healthful, too. It digests in a few minutes—so aids in the assimilation of other foods. It's especially good for children, specialists agree.

But for luscious western fruit flavors you will prefer Jell-well most. Loganberries, Strawberries, and Raspberries of Oregon and Washington. Oranges of California, etc.

You'll Like It

'After you try Jell-well—any flavor—you'll say: "That's the best dessert I ever tasted."

Then, we feel sure, you'll be glad to tell others about it.

Large Mold Free

We are, therefore, making you a liberal FREE mold offer in the coupon below with the one condition that you recommend Jell-well to five of your friends.

Tear out the coupon NOW—before you turn this page—then ask your grocer for three packages of Jell-well, the California dessert in the next RED box. If you find it hard to choose a flavor, say Loganberry—it's always a favorite.

Jell-well Dessert Company, 6440 E. District Blvd., Dept. SL-4A, Los Angeles, California.

I attach three (3) Jell-well package fronts. Please send me the new dessert mold. (Only one to a home. Void after Aug. 1, 1935.)

I like Jell-well and will gladly recommend it to five of my friends.

JUDGE'S PROBLEM IS FINDING JAILS FOR BOOTLEGGERS

U. S. Court Has Filled All
Cells in Four Counties,
and Fifth Bastille, at Mex-
ico, Will Be Insufficient.

With 150 liquor cases on his
docket, Federal Judge Davis was
faced with the problem today of
finding jail accommodations for
bootleggers.

Having filled four outlying
County jails, the Court yesterday
started sending bootleggers to the
Audrain County jail at Mexico and
exhausted more than one-third of
the available facilities for Federal
prisoners there by sentencing 22
defendants, ten of whom must go
to jail for nonpayment of fines.

The jails already crowded with
Federal prisoners are those at
Union, Warrenton, Montgomery
City and St. Charles. When the
Mexico jail is filled, the Court
probably will use the Marion Coun-
ty jail at Palmyra, near Hannibal,
in the northern division of the
Eastern district. Heretofore the
Court never has gone out of this
division to find jail facilities for
bootleggers sentenced here.

Seven of the 18 defendants who
pleaded guilty today were sen-
tenced to jail, making the total
destined for the Mexico jail 29, or
about half the number it can re-
ceive.

Those sentenced to jail were:
Frank Freuer, Page boulevard
and Bayard avenue, sale and pos-
session, three months and \$500
fine; Charles W. Hancock, 1029
North Eighteenth street, pos-
session, second offense, 60 days; John
Lucas Jr., 2630 Cherokee street,
sale and possession, 30 days and
\$450; Henry J. Miller, 4947 Clay-
ton avenue, sale, 60 days; Roy
Nisich, 1441 South Broadway, sale,
60 days; John Schweitzer, 3701
Case avenue, sale, 60 days; John
Torini, 6501 Manchester avenue,
sale, 60 days.

Fines, all for possession of liq-
uor, were imposed on Marya Ruir-
kewicz, Iowa avenue and Chippewa
street, \$450; Roy T. Rohan, Creve
Coeur, \$400; Nathaniel D. Glasco,
Eleventh street and Park avenue,
\$450; Zule Grubovich, 318 South
Vandeventer avenue, \$450; Robert

ROBBER WHO TOOK VICTIM'S 'LUCK PIECE' GETS 10 YEARS

Arthur Raleigh, 28 years old, 325
Hickory street, was sentenced to
15 years in the penitentiary by Cir-
cuit Judge Roskopf yesterday on
his plea of guilty to three charges
of robbery. He was sentenced to
five years on each count, two of
the terms to run concurrently and
the third consecutively, a total of
10 years to be served.

Raleigh pleaded guilty to the
charge of robbery in February of
confectionery shops at 2208 South
Ninth and 1120 Lami street and of
the butcher shop at 2401 South
Eleventh street. He was arrested
Feb. 15. A silver dollar the year
1873, which had been a luck piece
of John Hays, Ninth street con-
fectioner who had been robbed, was
found in his pocket. Hays also
identified him.

Two alleged accomplices of
Raleigh, also arraigned yesterday,
pleaded not guilty. Odie Tipton, 20
years old, of 2004 South Third
street, pleaded not guilty to all
three robberies. William Good-
man, 32 years old, of 223 Leaper-
ance street, pleaded not guilty to
the two robberies with which he
was charged.

Talks on "Opportunities for 1923."
"Opportunities for 1923" were
discussed by A. M. Landwehr,
president of the Holland Furnace
Co., Holland, Mich., at the weekly
luncheon of the Advertising Club
of St. Louis today.

DANDRUEF
Soon Destroys the Hair

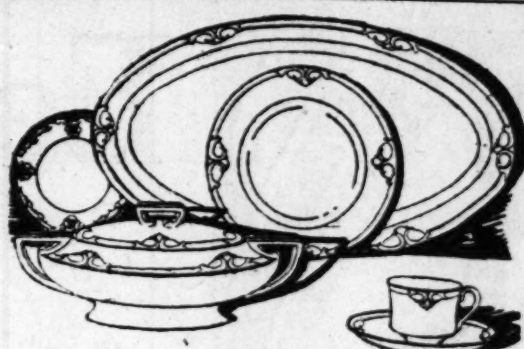

If you want plenty of thick, beautiful,
glossy, silky hair, do by all means get
rid of dandruff, for it will starve your
hair and ruin it if you don't.

It doesn't do much good to try to
brush or wash it out. The only sure way
to get rid of dandruff is to dissolve it,
then you destroy it entirely. To do this
get about four ounces of ordinary liquid
arvon; apply it at night when retiring;
use enough to moisten the scalp and rub
it in gently with the finger tips.

By morning most, if not all, of your
dandruff will be gone, and two or
three more applications will completely
dissolve and entirely destroy every
single sign and trace of it.

You will find, too, that all itching and
digging of the scalp will stop, and your
hair will look and feel a hundred times
better. You can get liquid arvon at any
drug store. Four ounces is all you will
need, no matter how much dandruff you
have. This simple remedy never fails.

10 Shirts and a Rag Rug Water Washed FREE

for every home in St. Louis

Carloads of Meadows, the home-washer
that makes water do all the work, now
available for FREE HOME TEST

We will do this for fifty thousand women
in March alone

YOU'LL agree that the washer doing
the best job on good shirts and a rag
rug, does the best job on anything else.

That's why we suggest this unusual
FREE test. Good shirts and a rag rug
make a washer answer these questions:

"Will it do as heavy work as the Laun-
dry?"

"Will it safeguard the delicate things I
used to trust only to hand washing?"

FREE home tests during March alone
will answer this for fifty thousand women.

How can we build this washer at the price?

Naturally you wonder how a washer
at this price holds the record of 50 to
60 pounds of dry clothes per hour.
Though more compact and easier to
handle. And maintains attractive sanitary
appearance with any kind of service.

It is because the device that creates
Meadows water-action is an impeller of
BAKELITE. Clothes friction is eliminated
for the first time. Every penny's worth
of current goes to make water-action.
No power is wasted machining or paddle-
washing the clothes. Water does it all.

And even interior decorators prize
Meadows' lively grey finish. Its natty
nickel fittings. And insist that cherished
draperies only be Meadowwashed.

What terms suit HIS pay check?

Don't buy now. Call for this FREE home
test. Prove our statement that Meado-

washing disposes of the weekly wash in less
time than any other way you've tried. And that
hand rubbing is banished forever.

Note how neatly this device fits an extra
corner in the basement or kitchen. How its
beauty blends with other new things.

We do not ask you to buy unless our terms
suit HIS pay check.

Why laundry bills?

What you save on laundry bills in a few brief
months, makes this money-saver yours for life.
Don't take our word for it. Try Meadowwashing
in this FREE home test.

See if it doesn't dispose of the week's wash
nearly as quickly as getting things ready to go out.

LOWDEN INDORSED BY MISSOURI G.O.P., PARTY UNPLEDGED

Move to Have Delegates-at-Large Instructed for Illinoisan Dropped at St. Joseph Meeting.

PLATFORM CENSURES OIL SCANDAL MILDLY

Effort to Break Slate of 'Big Seven' Made by Kansas City and Backers of Ex-Senator Williams.

By BOYD F. CARROLL
A Staff Correspondent of the Post-Dispatch.

ST. JOSEPH, March 27.—The Republican state convention adjourned here last night after adopting an endorsement of the presidential candidacy of former Governor Lowden of Illinois that to a large degree was a gesture, and included in the platform a mild censure of the oil scandals and corruption in office that was more defensive than a denunciation.

The Lowden endorsement, which largely is advisory for the seven delegates-at-large to the national convention was obtained only after a fight in the resolutions committee and on the convention floor. The Lowden managers were forced to abandon plans to demand instructions, because they lacked strength to put instructions through.

The platform commends the record of Lowden and states "we heartily endorse his candidacy for the presidency of the United States and commend it to the delegates who shall be selected at this convention." The commending of the candidacy to the delegates is not regarded as binding on the delegates-at-large.

ON SCANDAL MILDLY.—The oil scandal platform declaration was in general terms, included no names, and was directed at Democrats as well as at Republicans. The plank stated the plank and the file of the Republican party "resent, with bitter resentment, the acts of those in high places who have been traitors to public trust and it is with just anger that we challenge the attacks of Democrats upon our purposes and patriotism."

"The effects of the disclosures of the acts of these recent public officials will bring us into closer union than we have ever been before," the plank continued, "and as a united party, inspired with great responsibility, we will ensure our patriotic duty to our country and our government."

The speakers before the convention sought to supply what the platform did not, in the way of condemning corruption in high office. R. R. Brewster of Kansas City, chairman of the convention, said the Democrats pointed to former Secretary of the Interior, Albert B. Fall, who, he said, "had disgraced the nation and Republican party."

Formerly a Democrat, Brewster said Fall had been a Democrat for the first 50 years of his life and remarked in a joking way that he supposed Fall had learned what he afterwards practiced, during his first 50 years as a Democrat. In the same vein the late President Wilson was blamed for "betraying the nation" and the Veterans Hospital funds. Brewster said that if William Howard Taft had not sent Forbes to the Hawaiian Islands with a Government appointment, President Harding would have met Forbes, "and become infatuated with him."

Next to Lowden, United States Senator Reed of Missouri, candidate for the Democratic presidential nomination, probably received more mention during the convention than any other individual. He was attacked by Brewster, James A. Finch of New Madrid, the Lowden manager in Missouri and Kansas speaker of the convention and several other speakers.

Slate Goes Over.—The slate of Republican leaders that the "Big Seven" delegates went through without a change, although efforts were made to break it in several places. The seven delegates at large to the Republican national convention in Kansas City on June 12, and the votes they received from the 1931 delegates in the convention were: Former Gov. Hyde of Trenton, N. J., 100 votes; Gov. Baker, 100; Mrs. L. L. Zwick of St. Joseph, 100; Mayor Victor J. Miller of St. Louis, 100; City Collector Edmund Koelsch of St. Louis, 100; W. H. Moore of St. Louis, 100; member of the Legislature, 100. The seven alternates are Mrs. J. W. Loman, J. C. Parrish, L. C. Hootch, Helen Rogers, Myrtle Cook, H. Holliday, Sallie J. Adams, and two great large delegations in addition to the delegates at large.

Unsuccessful.—The new endorsement in the platform broke an agreement on a promise made by the delegates at large to support the control of the election. The delegates at large, however, were not to be bound by the platform.

The new endorsement in the platform broke an agreement on a promise made by the delegates at large to support the control of the election. The delegates at large, however, were not to be bound by the platform.

Opposition.—The new endorsement in the platform broke an agreement on a promise made by the delegates at large to support the control of the election. The delegates at large, however, were not to be bound by the platform.

Instructions.—The new endorsement in the platform broke an agreement on a promise made by the delegates at large to support the control of the election. The delegates at large, however, were not to be bound by the platform.

LOWDEN INDORSED BY MISSOURI G.O.P., PARTY UNPLEDGED

Move to Have Delegates-at-Large Instructed for Illinois Dropped at St. Joseph Meeting.

PLATFORM CENSURES OIL SCANDAL MILDLY

Effort to Break Slate of 'Big Seven' Made by Kansas City and Backers of Ex-Senator Williams.

By BOYD F. CARROLL.
Staff Correspondent of the Post-Dispatch.

ST. JOSEPH, Mo., March 27.—The Republican state convention adjourned here last night after adopting an endorsement of the presidential candidacy of former Governor Lowden of Illinois that to a large degree was a gesture, and included in the platform a mild censure of the oil scandals and corruption in office that was more defensive than a denunciation.

The Lowden endorsement, which largely is advisory for the seven delegates-at-large to the national convention was obtained only after fights in the resolutions committee and on the convention floor. The Lowden managers were forced to abandon plans to demand instructions, because they lacked strength to put instructions through.

The platform commends the record of Lowden and states "we heartily endorse his candidacy for the presidency of the United States and commend it to the delegates who shall be selected at the convention."

The endorsement of the candidacy of the delegates is not regarded as binding on the delegates-at-large.

Oil Scandal Mentioned.

On the oil scandals the platform declaration was in general terms, included no names, and was directed at Democrats as well, as had been forecast. The plank stated the "acts of those in high places who have been traitors to public trust, and it is with just resentment we challenge the acts of Democrats upon our platform and patriotism."

"The effects of the disclosures of the acts of these recent public officials will bring us into closer touch than we have ever been before," the plank continued, "and we are united party, inspired with great responsibility, we will, we cannot our patriotic duty to our country and our government." The resolutions before the convention were not sent to the delegates at large to supply what the plank did not, in the way of condemning corruption in high office.

R. R. Brewster of Kansas City, chairman of the convention, said the Democrats pointed to former Secretary of the Interior, Albert Fall, who leased Teapot Dome to oil interests, as a public official who had disgraced the nation and Republican party.

Formerly a Democrat, Brewster said Fall had been a Democrat for the first 50 years of his life and remarked in a jocular way that he supposed Fall learned that he afterwards practiced, during his first 50 years as a Democrat, in the same vein the late President Wilson was blamed for the war and the Veterans Hospital was not sent to the Hawaiian Islands with a Government appointment; President Harding, who visited there as a Senator, would have met Forbes, "and someone infatuated with him."

Next to Lowden, United States Senator Reed of Missouri, candidate for the Democratic presidential nomination, probably received more mention during the convention than any other individual. He was attacked by Brewster, James H. W. of New Madrid, the former manager in Missouri and key speaker of the convention and several other speakers.

Slate Goes Over.

The slate of Republican leaders in the "Big Seven" delegates went through without a change, although efforts were made to break it in several places. The seven delegates at large to the Republican National Convention in Kansas City on June 12, and the vote of the delegates from the 1931 delegates in the convention were:

Former Gov. Hyde of Trenton, N. J.; Baker, 1009.

Mr. Leutellius Cunningham of Missouri, vice chairman of the state committee, 857.

Mr. G. L. Zwick of St. Joseph, Mo.; Victor J. Miller of St. Louis, City Collector Edmond Koehn of Kansas, 695.

Waltham Moore of St. Louis, a member of the Legislature, and seven alternates are Mrs.

ST. LOUIS POST-DISPATCH

ST. LOUIS, TUESDAY, MARCH 27, 1928.

REED RECEIVES GREAT OVATION IN NORTH CAROLINA

Missourian Opens Fight on Josephus Daniels and Senator Simmons for State Delegation.

6500 AT HIGH POINT HEAR HIS SPEECH

Senator Attacks President as "Silent and Unmoved as a Pine Knot on a Dead Limb."

By CURTIS A. BETTS.
A Staff Correspondent of the Post-Dispatch.

HIGHPOINT, N. C., March 27.—Whether the ovation Senator James A. Reed of Missouri received yesterday on the first day of a three-day tour of North Carolina, in his campaign for the Democratic presidential nomination, will be translated into delegate votes in the National Convention only developments can determine.

In North Carolina, the Reed fight for delegates is a fight to wrest control of the State convention from Senator Simmons and the adherents of Josephus Daniels, Secretary of the Navy during the Wilson administration, both anti-Reed and anti-Simmons. The Reed forces will seek to prevent any instructions and to prevent the adoption of the unit rule for the delegation. North Carolina will have 24 delegates in the National convention at Houston, to be chosen at a State convention June 8.

The Senator had a real triumph day in Highpoint. When he arrived at 10 a. m., a shouting crowd of more than 2000 greeted him at the railroad station. His suite at the Sheraton Hotel was crowded all day and last night he had really a remarkable meeting.

Approximately 4500 men and women gathered in the high school auditorium, crowding every seat, every window sill and every aisle. In addition about 2000 persons were in an adjoining school building listening to the Senator's speech by means of loud speakers. And there were many who could not gain entrance to either building.

The audience listened with rapt attention, breaking out in applause when the Senator scored especially heavily in his attack on corruption in the Federal administration, and in his denunciation of Mellon, Fall, Denby and Daugherty, and his sarcastic references even to the President.

In the center of a pine country Reed altered his designation of the President, who was no longer "as mum as an oyster stranded on the sands of the seashore in August," but became "as silent and unmoved as a pine knot on a dead limb."

Charging that Cabinet members and many members of the Republican National Committee must have known of the contribution of \$250,000 of the bonds by Sinclair to help pay the debt of the National Committee, Reed brought forth applause with: "I will not say that Coolidge knew it. I will not say he knows anything about any of these matters, but I will say that I have the evidence and I have it."

Attacks Secretary Hoover.

Secretary Hoover in Reed's speech became "the great engineer who knows everything about everything, Mr. Hoover."

Former Gov. Lowden became the "fluttering angel of the farmer, hovering over him, his little farm and his bottom land."

"Nobody proposes to turn the rank and file of the Republican party out of office because the rank and file never has been in office," Reed said in beginning attack upon the controlling powers of the Republican party of the Government. "It is proposed to take the control of the Government out of the hands of the office holders, who have controlled the Republican party and betrayed its rank and file, just as they have betrayed the Government."

"If the rascals are turned out and honest men put in benefits flow to Republicans and Democrats alike, so that the turning out of Republican rascals is in the nature of a common benefit."

"Now, I freely admit that guilt is ordinarily personal, but while the crime may be committed by the hand of a single individual, it may also directly involve persons, it may also involve a system and are in complete control of the policies of a political party, then the guilt is a common guilt among those who have participated in it, and spreads throughout the management then the only sensible thing to do is to destroy the system, break up the combination and restore decency by the exposure of the rascals who have formed a part of the conspiracy."

The Senator with biting phrases

GIST OF PLATFORM ADOPTED BY MISSOURI REPUBLICANS

Document Approves Coolidge Administration Praises Record of Baker and Recommends Senatorial Subdivisions for State.

Special to the Post-Dispatch.

ST. JOSEPH, Mo., March 27.—The platform adopted by the Republican State convention here yesterday, follows, in part:

"The United States of America is a nation and it is not a confederacy or a league. It belongs to the people of the United States. It is the duty of the state to assert and maintain the rights and powers reserved to them under the constitution of the United States and it is the duty of the United States to respect the reserved rights of the several states. This declaration of principle is re-stated at this time so as to define clearly the position which our party has always taken on this subject and for the further purpose of meeting clearly any political issue which may be advanced by the Democratic party. The leaders of that party are indulging, and have indulged, in misstatements on this question, and their party platform have contained vague and indefinite statements which are calculated and are intended to confuse the public mind on this question."

"It is a well-known fact that President Coolidge has consistently urged the states to assert and assume their prerogatives of local self-government and that his administration has been actively and successfully engaged in cutting down and weeding out many of the departments and bureaus which were saddled upon our national Government during the World War."

"We strongly urge that this policy continue under the Republican administration; that follow; that the policy of retrenchment; the lowest number of bureaus and departments be always provided for in the policies of the administration at Washington."

"The Republicans of Missouri are justly proud of the character and achievements of their Governor, Sam A. Baker. He has shown a splendid equipment for public service. His record for fearlessness and conscientious action has appealed to the citizens of Missouri regardless of party affiliations. We take pride in the economical and progressive administration of our State government, under the leadership of Gov. Baker, and endorse his candidacies for him and those associated with him in authority for more adequate support of our school system and the inauguration and execution of their grand program for good roads. We heartily endorse the administration of Gov. Baker and the Republican State officers, who have been associated with him in advancing the best interests of the people of our state."

"The great rank and file of the J. W. Lyman of Kansas City, Mrs. J. C. Parrish of Vandallia; Mrs. Lon C. Hoeker of St. Louis; Mrs. Helen Rogers best of Carthage; Mrs. Myrtle Cook of Kansas City; John H. Holliday of St. Louis and Mrs. Sallie J. Adams of Ava.

Two presidential electors at large, elected by the convention in addition to ratifying the 15 electors endorsed by the congressional districts are, Mrs. E. E. Ruolph of St. Louis, and William Buchholz of Kansas City.

Attempt to Break Slate.

Unsuccessful efforts to break the "Big Seven" slate of delegates by Kansas City, which was not given a place on the delegation, and by supporters of former United States Senator George H. Williams of St. Louis County; Sam A. Baker, ex-Summers of Kansas City, backed by the Hoover forces that were in control of the Jackson County delegation; Albert Newman of Kansas City, backed by the Lowden forces; and the Jackson County delegation; Congressman J. J. Manlove of Joplin, and Homer J. Phillips, Negro of St. Louis. The five trailed the field, the seven winners being elected on the first ballot.

The row over the Lowden endorsement in the Resolutions Committee broke after leaders had agreed on an endorsement in compromise negotiations that followed discovery by the Lowden managers yesterday that they did not have strength enough to force instructions.

Opponents of Instructions.

Instructions were opposed by Dr. E. B. Clements, Republican National Committee member, Hyde and his friends and the Hoover minority. These groups had been carrying on a quiet campaign to shut off ironclad orders to the delegates-at-large. The 15 congressional districts are bound only by instructions of their districts. Twenty-three of them are claimed for Lowden.

When the committee convened, a test of the instructions favored by Williams, chairman was 10 to 5 against instructions, with one of the committee members absent. A second test vote on an endorsement resulted in a tie 10 to 5. Party leaders were hastily summoned to quell the opposition to the compromise, led by R. G. Vorhees of St. Joseph, a district delegate, and Roy A. Monier of Car-

UNION LABOR UNEMPLOYMENT SITUATION IS UNCHANGED

18 Per Cent of Membership in 23 Cities Idle in Both January and February.

By the Associated Press.

WASHINGTON, March 27.—Unemployment among union workers in 23 representative cities remained stationary in January and February, the American Federation of Labor, will say in its April issue, giving average unemployment in 15 per cent of membership in both months.

Statistics in the Federationist give unemployment in New York City as 24 per cent in January and 23 in February; Atlanta, 10 and 11; Boston, 20 and 20; Cleveland, 24 and 26; Detroit, 32 and 30; Los Angeles, 23 and 23; Philadelphia, 31 and 31; Pittsburgh, 18 and 17; Denver, 21 and 19; and San Francisco, 14 and 14.

PROHIBITION FOR MEXICO SUGGESTED BY GEN. O'BRENN

Only Candidate for Presidency Also Assails "Wicked Catholics"

By the Associated Press.

MEXICO CITY, March 27.—Prohibition was injected into Mexican national politics last night by Gen. Alvaro Obregon, sole candidate for the presidency of the republic. He proposed it in a political speech at Silao in the State of Guanajuato, and declared that alcohol, gambling, reactionism and "wicked Catholics" were the principal enemies of the Mexican people.

"Reactionaries, who would overthrow the revolution," he said, "are not our only enemies. They have found all allies in alcohol and gambling."

Obregon said that "wicked Catholics" were those who used their religion as a means of propagating anti-government activities.

3 MEXICAN TOWNS REPORTED DEVASTATED BY EARTHQUAKES

By the Associated Press.

MEXICO CITY, March 27.—Dispatches from Pochutla, State of Oaxaca, say that the towns of Hidalgo and Xochimilco have been devastated by a series of earthquakes which have been felt rarely in the district since last Wednesday night.

The earth tremors and rocks rolling down the sides of La Sierra Mountain destroyed all the hamlets on the slopes of the mountain. Several fissures varying from one to three feet in width were opened up on the side of the mountain and it is feared that the mountain itself may crumble.

JAIL FOR MEXICAN WORSHIPERS

Alternative of 500 Peso Fine for MEXICO CITY, March 27.—A choice of a fine of 500 pesos or a month in jail has been given the men and women arrested recently for conducting or participating in religious services held in private residences. The police yesterday arrested two men and two women on these charges, adding them to a considerable list who have been taken into custody within a fortnight.

The police continue to search Mexico City residences for arms and ammunition intended for the insurgents in Jalisco.

COVERS PARISH IN PLANE

Australian Churchman Discards "Auto to Be 'Sky Pilot'."

By the Associated Press.

RIVERINA, New South Wales, Australia, March 27.—Rev. L. Daniels finds his new airplane, Far West, much more convenient for covering his parish in the Darling River country than his old motor car. His district is as large as the whole of England.

Daniels enjoys the experience of landing in bush clearings and holding brief services, with occasional baptisms and weddings, and then dashing off again skyward for his next service.

STAR 'NOVA PICTORIS' SPLITS

South African Astronomers Study Developments.

By the Associated Press.

CAPE TOWN, 27.—Astronomical circles are deeply interested in the discovery that the star "Nova Pictoris" first discerned in South Africa in 1925, has split in two.

The La Plata Observatory in Argentina recently reported that this star presented a very strange appearance. The South African astronomers resumed observations through their 26-inch telescope and discovered that the star had split. Developments are being studied.

Trans-Jordan Made Independent.

JEERUSALEM, March 27.—(Jewish Telegraphic Agency)—Trans-Jordan, the Western part of Palestine, was recognized as an independent government in the new agreement between Trans-Jordan and Great Britain. The agreement stipulates that Trans-Jordan is to be independent under the rule of Emir Abdullah on all internal matters. In matters of international import the territory is to be represented by Great Britain, which may also maintain in Trans-Jordan armed forces. (Great Britain already holds a League of Nations mandate over Trans-Jordan.)

Tokio Waitresses "Paid" With Tips

By the Associated Press.

TOKIO, March 26.—Of 26,045 waitresses in Tokyo cafes, 11,577 get no wages but depend on tips, police found. In some cafes they buy positions.

FASCISM SHOWS IGNORANCE OF ELEMENTARY PEDAGOGIC PRINCIPLES, POPE DECLARES

Church Alone Is Entrusted With Mission of Christian Education, He Says in Attack on Mussolini's Juvenile Training System.

By the Associated Press.

ROME, March 27.—The address of Pope Pius XI criticizing the National Catholic center party for its alleged slighting of its religious character in favor of closer cooperation with the fascist government was the main topic of discussion today in diplomatic as well as ecclesiastical and Roman political circles.

French Catholics were particularly puzzled in view of their forthcoming election on April 22. Instructions from Cardinal Gasparri, papal secretary of state, enjoined them on supporting the Republican regime now in power. The Italian Catholics, however, have just been rebuffed for overzealous support of the fascist regime.

There is no "Roman question" between the French state and the Vatican as there is between the Vatican and the Italian state, but the laws of the French republic against teaching of religion in schools and other measures, it was believed, could hardly have the holy see's unqualified approval.

In the Pope's address of Sunday to the diocesan board of Rome one of the things to which he seemed particularly to object in the fascist program was the brigading of youth of the nation to be educated in strict fascist style.

The pontiff asserted the church alone was entrusted with the mission of Christian education and the formation of youthful character. The Pope and the Italian Ecclesiastical Hierarchy for a long time have been showing signs of nervousness over the growth in popularity of the "Ballila" and "Avanguardisti" organizations—the boys and youth of which wear the traditional black shirts, are trained by military methods and taught the fascist doctrine that the individual exists for the State and not the State for the individual.

Although these two powerful bodies have their Catholic chaplains to care for the youth's spiritual welfare, there has been the least of the church's influence might, in the end, draw Italian youth away from the influence of the church.

In Vatican circles and among leaders of the National Catholic center party the address was also regarded as having set back the negotiations between the Vatican and the Government for the settlement of the "Roman question."

The Pope said he had been pained to realize that the party was "putting on the same footing and attributing the same right to the despoiled holy see and the State."

The pontiff, dealing with the recent convention of the Catholic party, said the party met in Rome "without feeling the need to come and pray over the tomb of Rome's first bishop, St. Peter, and the Apostles, and without coming to

FARM BILL, WITH EQUALIZATION FEE, GIVEN TO HOUSE

Little Opposition Is Expected When Measure Is Called Up for Vote Next Month.

By the Associated Press.

WASHINGTON, March 27.—Farm relief as embodied in the McNary-Haugen bill today appeared to be started on another legislative voyage that promises to lead to the White House for the second consecutive year.

The measure, however, has been renovated since its last journey. After weeks of consideration, its sponsors claim to have eliminated, with the exception of the equalization fee machinery, practically all of the features that were objected to by President Coolidge in vetoing the bill's predecessor.

Assurance that such a trip again would be possible came late yesterday when the measure survived the last voting skirmish in the House Agriculture Committee. With its committee approval by a 10 to 5 vote, it now stands in the House, as in the Senate, as the farm bill endorsed by the majority of both the agriculture committees of Congress.

Line-up of Committee.

Nine Republicans and six Democrats joined in supporting the bill while four Republicans and two Democrats lined up in opposition.

Republicans voting for were: Haugen, Iowa; Funnell, Indiana; Williams, Illinois; Thompson, Ohio; Hall, North Dakota; Menges, Pennsylvania; Anderson, Minnesota; Adkins, Illinois and Hops, Kansas.

Democrats voting for: Kinchloe, Kentucky; Jones, Texas; Swank, Oklahoma; Fulmer, South Carolina; Rubey, Missouri, and McSweeney, Ohio.

Republicans against: Clarke and Frazer of New York; Fort New Jersey, and Ketcham, Michigan.

Democrats against: Aswell, Louisiana, and Doyle, Illinois.

Passage Apparently Assured.

Supporters of the bill predict that they can muster the necessary votes to send the measure to the White House and so far none of its opponents has denied their claims.

While House leaders have not definitely announced when the bill will be called up on the floor, it is expected that it will get the legislative right of way about the middle of April.

Chairman Haugen has described the new measure as the "best farm bill ever reported to Congress."

Representative Funnell, of Indiana, ranking Republican on the House Agriculture Committee, has declared that all features, except the fee, to which Mr. Coolidge objects, have been removed, and that steps even have been taken to make the fee machinery less offensive to the administration.

The Indianan contends that the Federal Farm Board, which the measure would create, is directed under the bill to endeavor to stabilize the farming industry by use of the loan-to-co-operative provisions before it can resort to the equalization fee plan.

The bill would authorize an appropriation of \$400,000,000 for loans to co-operatives, while the measure as reported by Chairman McNary of the Senate Committee and endorsed by that body, would authorize a loan of only \$250,000,000.

Haugen has announced that this difference constitutes the major difference in the two bills as the House measure was changed in several respects to conform with the Senate proposal.

Both bills would give the President a free hand in selecting the membership of the proposed board except for the constitutional requirement that nominations must be approved by the Senate. Last year the bill would have restricted appointments to persons recommended by farm organizations. Coolidge objected strenuously to this provision as an encroachment upon his constitutional powers.

Again, both bills would apply to all agricultural commodities, thereby removing another objection to the 1927 measure which covered only wheat, corn, cotton, tobacco, rice and swine.

Several members are expected to oppose amendments to its provisions. Included in this group is one Democrat, Representative Kinchloe of Kentucky, who contends that farm organizations should be given the privilege of making recommendations to the President regarding prospective board members, even though such suggestions would not be binding in any way,

LETTERS FROM THE PEOPLE

The name and address of the author must accompany every contribution, but on request will not be published. Letters not exceeding 200 words will receive preference.

Deplores Mr. McDaniel's Factionsness.

To the Editor of the Post-Dispatch:
I THINK it lamentable that whoever conducted the debate at the Coliseum between Judge Lindsey and Mr. McDaniel on companionate marriage should not have picked an opponent for Judge Lindsey who would have met the issues and discussed them sensibly.

Humor is certainly a fine thing in debate. It enlivens the occasion. But humor has to be supported by sensible argument. I have always been an ardent admirer of Judge Lindsey, but the reasoning on which he seems to base his belief in companionate marriage is quite unsound. It should have been met and answered.

Shrewd work on the part of Mr. McDaniel would have got to the bottom of Judge Lindsey's fallacies and would have shown them up for what they are. It is certainly too bad that Mr. McDaniel chose to play with light humor as a substitute for argument. Judge Lindsey himself resented Mr. McDaniel's persistence in sidetracking the discussion.

J. FRED MCGREW,
Fayetteville, Ark.

Corruption in Government.

To the Editor of the Post-Dispatch:
FROM newspaper reports of all the evidence it looks like Harding and his Cabinet, Daugherty, Fall, Hays, et al., sold out the Government's war supplies (oil reserves) to the highest bidder. In other words, they practically committed treason against their own country, the most diabolical crime on earth, and if there is any justice or honor left in the courts of this country they should all be put in prison where they belong.

Every country in the world looks down on and secretly despises the shameless bribe takers and givers who are in control of this Government and anyone can see that no wealthy, honorable foreigner settles in this country where they are liable to be robbed by the crooked gangs and courts behind them. Only fortune hunters come here. This is done in and is certainly true the Democrats took charge of the Government and kicked out the crooks and their friends.

E. PLURIBUS UNUM.

The Traffic Race on Seventh Unleashed.

To the Editor of the Post-Dispatch:
"AN OLD PRINTER" protests against speeding automobiles on Seventh boulevard. The writer of this "mad rush" asks whether something cannot be done to stop the carnage. Stop the traffic race each three minutes all along the line and you have corrected the cause of traffic fatalities. Then after a 15-second pause for cross traffic, let the through traffic surge on for another three minutes. This is done in many cities through the employment of traffic lights on every corner with left turns permitted on the green light (with caution, of course), and it is as satisfactory to the motorist as it is safe for the pedestrian.

But it will never work until the Department of Streets and Sewers wakes up to the fact that left turns can be made where there are traffic signals.

ROBERT E. NEYER.

The O'Hanlon Case.

To the Editor of the Post-Dispatch:
I DESIRE to congratulate you on the editorial about the O'Hanlon case, and am glad to see that there are some people who believe in fair play. I notice an item in your paper which states that Lieut. Thomas Walsh was retired from the police force after 44 years of service, and is to receive a pension equal to one-half his salary. He certainly deserves it, after giving most of his life in serving his city.

But why does the Pension Association discriminate against O'Hanlon? He left the service over two years ago, after 41 years of service, and was obliged to file suit to obtain his pension.

F. P.

Tuberculosis Signboards.

To the Editor of the Post-Dispatch:
I HEARTILY agree with the letter in the Post-Dispatch of March 23 which censures the Tuberculosis Society for billing the city with huge signboards depicting the symptoms of disease when, as it says, most invalids are aware of their afflictions, only too well, in fact. Let the Society prepare for those already suffering and in need of shelter and care, instead of furnishing the turbulent thought of morbidities with more fear than they already have.

Let the Society preach the gospel of cleanliness and fresh air, yes, and help to provide them, and it will find less of sickness to overcome, less of despair to eradicate. Let it use the money provided for this good purpose, and not deface our beautiful city with more hideous signboards than are already taking up space that might be utilized for better purposes.

JANET WATERS.

PROHIBITION'S TRIUMPH.

The four outlying county jails which have been used to house persons convicted of violation of Federal laws, especially the Volstead act, are now full to overflowing. Judge Davis with 150 violators of the Federal prohibition law on his docket, has found it necessary to extend the territory upon which to draw requisitions for jail room to accommodate the prisoners convicted in his court.

Hitherto he has used the jails at Warrenton, Montgomery City, Union and St. Charles. They are now overflowing with prisoners, and he is drawing on Mexico for cells.

In addition to the county jails, the penitentiary at Jefferson City is overcrowded, while the Federal prison at Leavenworth has a thousand more prisoners than its capacity justifies.

Within the near future we may expect all the penitentiaries and all the jails to be crowded beyond capacity, and the necessity will then arise to build new jails. We may expect the jail-building industry to boom within the next few years. The country will be dotted with jails.

The overcrowding of jails and the necessity of building new jails to accommodate prisoners were not the original beneficial effects of Federal prohibition predicted by the prohibitionists. In the first exuberance of their zeal to banish all liquors and forbid all use of alcoholic beverages by law, they promised that it would diminish crime and empty the jails.

The prohibitionists selected the wrong benefits in the beginning. They find no difficulty in changing their views. They point with pride to the overflowing jails as an evidence of the beneficial effects of prohibition; see the efficacy of law enforcement and the punishment meted out to lawbreakers, they say.

Who can gainsay the striking spectacle of a rapidly growing army of jail-birds presented by the enforcement of the prohibition laws? Of course the jail-birds are not criminals in the true sense of the word. The crimes for which they are imprisoned are not crimes in themselves, against life and property, but are law-made crimes. But what a triumph for law! What an achievement for civilization! What a victory for morality and religion to have jails overcrowded with men found guilty of violating a sumptuary law! What an immense gain for the country to vastly increase its convict population by manufacturing crimes out of acts which are not regarded by mankind as criminal!

There is no limit to the number of convicts that may be made by the Volstead act and its supplemental state laws. But doubtless there will be an exultant paean of praise and thanksgiving from our prohibitionist brethren when 50 per cent of the population are branded as convicts, have their pictures in the rogues' gallery and wear the pallor of the prison.

MR. HAYS SAILS.

When Will Hays resigned the office of Postmaster-General in the Harding Cabinet to accept the \$100,000-a-year job with the movies, most people thought he had made a mistake. If there was a young man of destiny in the United States at that time it was "the gentleman from Indiana." As chairman of the Republican National Committee in the congressional campaign of 1918 and in the presidential campaign of 1920 he had exhibited extraordinary qualities of leadership—skill, energy, judgment, tact, political insight and sterling character. His way apparently led to whatever heights he chose in public preferment.

Today Mr. Hays has no political future. His experience and talents may still be of service to his party. Party leaders may consult him in campaign emergencies, but they will do so secretly. The chairmanship of the Republican National Committee is a place he can never again hold. That is what his part in the financing of the Harding-Coolidge deficit, as dragged out from his unwilling and deceitful testimony before the Senate committee has done for him.

Mr. Hays is still "fear of the movies." As such he sailed for France on Saturday. But he sailed with permission of the Senate committee. He is a "crab" on parole. Such is the dizzy descent of Will Hays from moral affluence to moral bankruptcy.

JUDGE McILHINNEY.

In a day when too many of the judiciary regard the bench as a mere stepping stone to more remunerative, if less dignified, positions, John W. McIlhinney of Clayton, the dean of Missouri's Circuit bench, was an outstanding figure by virtue of his devotion to his chosen work.

For more than 27 years he set an example of judicial fairness, legal expertness and courtroom courtesy made possible only by virtue of the fact that he regarded the work of the bench as his life's calling. By that very circumstance he was invariably respected by his place by the voters when his term had expired.

A Republican by political profession, Judge McIlhinney did not descend to the undignified methods of politics to lay his cause before the voters, nor was it ever said of him that he decided cases according to the exigencies of partisanship. For his judicial virtues, as well as for his keen knowledge of the law and his innate ability to decide the finely drawn questions of the Equity Court, he was a commanding figure, and his death, even though it preceded by only a year his projected retirement from the bench, is a distinct loss to the State.

MEAT-EATER IN GOOD STANDING.

For a long time the practice of eating meat has been in disfavor, almost in disrepute. First it was the lettuce legions that tramped across the dietary world with haughty stride. Then came the spinach addicts, like the "pouring torrents" of Genghis Khan, making us feel like cannibals or imbeciles with their proud, superior bearing. Only the hardest-boiled of us have openly stuck our muzzles during this vegetarian obsession.

But meat-eaters are now justified. We are in right. Once again we can frankly indulge our admirable and wholesome appetites. Acknowledgment is due Mr. Stefansson and another Arctic explorer. For 24 days they ate nothing but meat. Stefansson, who was badly overweight when the experiment started, got rid of the surplus. His associate's experience was similarly gratifying. They are now "rarin' to go."

The meat-eaters of the country, let it be said, will not be overbearing or insolent simply because their philosophy of life has been vindicated. The folks who prefer grass, parsnips, limpet weed and sun-

flower seed, or choose to eat such rubbish because someone has told them it was good for them, may go on their idiotic way unrebuked and unheeded. We meat-eaters being rational persons of higher mentality, better manners and superior outlook, will treat them courteously. We shall invite our herbivorous brethren, when occasion permits, to eat honest food, but no compulsion will be attempted. We meat-eaters are not reformers.

THE TRANSIT SURVEY.

Mayor Miller points out that if a way can be found to get the cost of a transit survey out of city funds it will not be necessary to ask that the street car company pay for it, and the Post-Dispatch trusts a way will be found to get the money out of city funds.

The street car company does not, in our opinion, bear to the transit problem exactly the relation granted it by the Mayor. We admire the celerity and effectiveness with which he has set his official hand to the matter of getting a survey started, but we cannot see why such a survey should be to any degree the joint enterprise of the city and the street car company. They have not the same interest in common. The city is looking at it from the viewpoint of its own interest. We want to see the transit movement succeed, and are therefore apprehensive of the inevitable clash between these two viewpoints. The street car company has no right to ask representation upon the commission which is to make the survey. That commission, presumably, should be independent and have only the public interest in mind. No representative of the street car company sitting with the commission could desert the interest of his company for that of the public, nor will any such representative do so. The result very likely would be a divided commission and conflict.

If the street car company is entitled to representation, then all transportation companies using the streets and serving the public are entitled to representation. Not, of course, in the same proportion; but they are all, the street cars, the bus lines and the service cars, in the same business. The street car company, as the chief transportation interest, is entitled only to a full hearing. Certainly, it is not entitled to any place among the judges who shall pass upon its rights in their inevitable conflict with the rights of the public.

We are hopeful that the Mayor and the Board of Aldermen will see this. No prejudice attaches to the Mayor's ordinance because it is not at the outset in all respects what it should be. A matter of such vast proportions is not easily resolved at the outset into the simple terms of wisdom. If the Mayor and the Aldermen will give the city a survey for which the city pays, and a commission wholly free in its personnel to do exact justice to every interest involved, city and street car company alike, it will be the greatest achievement of Mr. Miller's administration.

WANTED—A STATE FLYING CODE.

After an uphill fight through the winter to win public confidence through such magnificent feats as the Lindbergh Central American flight and the world tour of Cotes and LeBrix, aviation is losing ground again. The tyros are breaking down the work of better men.

Almost every day since the return of good flying weather, the news has carried accounts of disastrous crashes from all parts of the United States. In almost every case the victims have been student pilots and their passengers. All of which points to the need for another bulwark against the depredations of the unskilled airman.

The United States has already set up a splendid system of regulation of aviation through the Department of Commerce and flyers the country over have shown their appreciation of the legislation by giving it their utmost co-operation, particularly in the enforcement of its restrictive measures for pilots and airplanes. Unfortunately, the Federal Government can regulate only those planes and flyers who are engaged in interstate traffic. It has no hold upon the aviation school or upon the tyro who operates within the limits of an airfield and crosses no state line.

Adequately to safeguard the development of the flying, the states must inevitably clamp down stringent regulations upon pilots and aircraft operating within their boundaries. New York has already adopted a State code. Missouri would do well to follow suit in the work, which has already had the endorsement of Col. Lindbergh.

The students of Yale have voted Lindbergh the greatest living man. There was no vote taken on the greatest living woman, each student having in mind his own girl.

THE SHELTON SCANDAL IN EAST ST. LOUIS.

When a majority of the East St. Louis City Council voted down a resolution by Commissioner Hallahan to make a thorough investigation of the attempt by someone in the Police Department to furnish robbers with an alibi by altering police station records, that majority did precisely what nearly everyone in East St. Louis expected would be done.

The East St. Louis police administration, or those who control it, are not unfriendly to the Shelton gang. That is why the gang openly makes its headquarters in East St. Louis. They have been run out of this city and counties in Southern Illinois, but they remain unmolested in East St. Louis.

The Sheltons were on trial for bank robbery at Taylorville last January and three East St. Louis police officers—Lieut. O'Brien and Detectives Combs and Cashe—bustled up there and testified to their positive knowledge that two of the three Shelton brothers were in jail in East St. Louis the day of the robbery, four years ago, and, therefore, could not be guilty. They brought the East St. Louis official police blotter of Sept. 27, 1924, to bear them out, but it was afterwards disclosed this blotter had been altered by someone who added the Shelton names. This fraud is admitted by all, and yet a majority of the City Council accepted the Police Board's report that there was not sufficient evidence on which to base an investigation. The officers who fronted for the Sheltons were not called for questioning.

Commissioners Hallahan and Lauman, who sought in the interest of honest public service to punish the perpetrators of this fraud and were voted down by a majority, need not feel discouraged. They have put the other Commissioners on record and the people now know where the interests of a majority of their Council lie.

CHICAGO BURIES A GANGSTER.

A Missouri Editor on Mexico

Mexican Churches Are Open and Filled With Worshipers; Southern Republic on a Solid Money Basis; Glamorous Possibilities of the Magway Plant; a Policy of Common Sense and Justice.

H. J. BLANTON in Monroe County Appeal.

THE strangest thing in Mexico is the spectacle of a nation 50 per cent Catholic without an officiating priesthood. Many of the Catholic churches are open and filled with worshipers. While no priests are seen about the altars, the candles are burning brightly and people are offering their devotions as best they can without such leadership. As has always been the case when the Church and the State were at odds, the clergy finds a way to do its regular work. In caves, private houses and secret places of all sorts what irreverent Americans term "bootleg services" are being held. Occasionally the priest is caught and punished. Most of the time he is not. Many priests have been killed, most of them while taking part in revolutionary activities against the Government. The strangest and most bewildering feature of the entire matter is that Calles, who is not a Catholic, is able to secure loyal support in his contest with the Church from an army and from civilian authorities that are fully 50 per cent Catholic. One thing that helps is propaganda to the effect that he is keeping in the pockets of the masses the \$20,000,000 or \$30,000,000 that is alleged to have been sent from Mexico to Rome every year. Obregon, who will succeed to the presidency next July, is pledged to a continuance of the Calles policies, though there seems to be a growing sentiment to the effect that he will make substantial concessions after he gets into power.

In Mexico both beggars and soldiers are much less numerous than in Italy or Spain. Asked why the Government sent military guards with trains a railway official explained that it was to protect them from possible danger in remote districts where two or three men might rush forth and hold everybody up. "Like they have been doing in Chicago," he laughingly said.

MEXICO is on a solid money basis. No paper money is in circulation. The Mexican dollar or peso is worth just half what the American dollar is. The Mexican gold piece, however, is at par anywhere in the world. At the Bank of Mexico we saw more than fifty million dollars worth of gold and silver coin in the vaults. A still stranger thing was the sight of transfers of huge amounts of this coin to outlying banks or places of business without guards of any sort. This is because life and property in Mexican cities is much safer than in the large cities of our country, a fact that was explained by what happens to a Mexican who is arrested for burglary or highway robbery. If there seems to be a clear case of guilt, we were told, the undertaker instead of the courts is in charge of his case the next morning. Out in the rural districts is where Mexico gets her black eye. Small bands of desperadoes infest many localities and live by plunder.

Coming north from Vera Cruz, where Cortes burned his ships and started on the conquest of a great empire, we experienced in just four hours' time every sort of climate, vegetable, fruit, tree and natural scenery that could be found on a trip from Cuba to Denver. Beginning with coconut palms at sea level we passed through cot-

tee groves, banana, orange and pineapple plantations to regions of wheat and corn. The train during these four hours gradually climbed from sea level to an altitude of 8500 feet, with old Orizaba, second highest mountain in the Western Hemisphere, towering 15,000 feet into the sky.

I WAS impressed with the possibilities of the magway plant as a solution of the problem with which thirsty wets are wrestling in our country. Countless millions of them are grown for commercial purposes in Mexico. When the leaves are scratched at the proper season they exude a clear fluid which flows to a natural receptacle down toward the root. When fresh this fluid is said to be the most refreshing and palatable drink imaginable. Allowed to set for six hours it has a wallow that can only be compared to a stroke of lightning or an explosion of dynamite. A large plant yields one or two gallons of fluid a day. It seemed to me that a thirsty American citizen might smuggle a small magway plant into his home and thus be able to acquire a first-class case of delirium tremens without going through the painful and costly process incident to the white mule industry, as at present.

The greatest contrast in Mexico is between the modern, magnificent cities and the poverty stricken, backwoods country. In the cities the streets are literally choked with fine cars of both European and American make. The people have every modern convenience in their homes. Out in the country there are no autos, no telephones, no windmills, no modern machinery. The people are the one-handled sort the Jews used in Abraham's day. They are drawn by cattle of all sorts and sizes. The planting is done by hand and so is the reaping and threshing. Cloth for clothing and blankets is woven by women. Most of the houses are built of sun-baked brick.

I was impressed, or rather distressed, by Mexican store hours. Merchants sell nothing until 9:30 a. m. At 12 they close. At 2:30 they reopen. At 7:30 both custom and law require that they close for the night. I happened to stay in a store in Mexico City until 7:45. The proprietor had to let me out through a back door.

Getting back to baseball, our national sport seems in a fair way to take the taste for bull fighting out of the Mexican mouth. Everywhere we went, even down to the border line of Yucatan where people live in thatch houses and seem otherwise as primitive as those in the Philippines or along the Amazon, men and boys were out with their balls and bats. Football and tennis, too, are proving immensely popular.

MY concluding impression of Mexico is that a nation that can build such cities, produce such crops, operate such railroads, promote such a school system and undertake such reforms for agriculture is capable of solving its own problems without outside help or interference. Since Ambassador Morrow went down there and inaugurated a policy of common sense and justice in our intercourse with Mexico mutual confidence and good will have come.

JUST A MINUTE

(Copyright, 1928.)

LITERARY OBSERVATION.

For ecstasy of love I'm sighing.
For ecstasy of love I'm sighing.
If song to passion I'm ladling,
I'm lying.
Though in my songs I oft refer
To dimes and dimes and dimes and dimes,
In private life I much prefer
Good cooking.

Villon may sing of passion blind,
And Bobby Burns praise Highland linn,
Of all but the domestic kind
I'm chary.

The love of which the poets write,
The kind that rends the soul asunder,
I always have considered quite
A blunder.

I do not ask despair or bliss,
For ecstasy I am not pleading;
I only seek for such as this
When reading.

Though poets sing of passion rare,
And all of them swear greatly by it,
There are but few who seem to care
To try it.

A hick town is one where the motorist
Still has to buy the gasoline at the store.

"They say grandfather was handsome,"
remarked the young hopeful as he looked
at the family album. "So it is just barely
possible there was something wrong with
camera when this picture was taken."

In some prize fights, the taxes are the
out and the customers are taken in.

Sleeping sickness: Insomnia.

Then again, there are times when we
have a faint suspicion that a scientist
can tell the exact age of a fossil really
not know how fast the kitchen clock is
running.

Sometimes, we try to figure out to what
use a detour could be put if it were not
a detour.

One advantage to the distinctive
job is that the driver is just as
even after the car is entirely his.

Imaginary Conversations.
Magna: Now what would you say to
the value of this property reproduced?
Expert: That depends on whether you
are buying or selling.

No man is a hero to his biography.

And in the old days, when they
down to meet the train, they were not
for an automobile ride.

According to the candidates, the
Illians will nominate about five
at Kansas City, if they nominate
to the candidates.

However, it can be argued that
a man uses those little labels on
the things he plants in his garden, he at
least knows what he planted.

The objection to forgetting Indiana
that it is taken as a license to do the
thing over again.

Of Making Many

JOHN G. NEIHARDT

Something Strong and Good

THE WAY OF POWER. By L. Adams Beck. (Cosmoquitan.)
It is a curious fact that during the past generation Western scientific theory, both in physics and psychology, has developed in the direction of essential agreement with certain ideas of the East. The scientific theory of the constitution of things, far from that of the materialism of the last century, has been a general statement of the electronic theory of matter, and it will read like a loose paraphrase of one of Buddha's discourses on the constitution of things. Far from that, substantially the same idea can be found in the Upanishads. Sum up in non-technical language the theory and practice of modern psychiatry in dealing with sick personalities, and it will be found that, allowing for difference in temperament and the use of terms, psychiatry, as far as it goes, strongly suggests the Oriental conception of the self and the means by which a healing peace with power may be attained, according to ancient religious teaching of the East. The theory of electricity, with its implications as to space and time, recalls the ancient Oriental conception of consciousness and the phenomena of the world.

Some may believe these curious correspondences to be merely accidental; some may explain them by saying that there is a slow invasion of Western thought by Eastern ideas; others may explain that truth is universal and that therefore all roads of inquiry lead to the same end; still others may suspect that our intense preoccupation with the objective world of the senses is resulting in a reaction towards the old subjective view. Whatever the correct explanation may be, the fact seems obvious enough, and it is with this in mind that the serious reader might as well in spending some hours with "The Way of Power," by L. Adams Beck, otherwise known as E. Barrington, is generally thought of as a writer of colorful novels with a strong Oriental flavor, and it is probable that many who have enjoyed her tales have not suspected the deep seriousness underlying them. In "The Splendor of Asia," a truly golden book, she tells the story of Buddha with power and beauty hardly possible to one without intense conviction; and in the volume here listed we have her first public confession of faith, not in any particular religious dogma, but in the fundamental religious and philosophical ideas which all such dogmas were originally intended to express.

In many years, the author tells us, she has been studying the "Way of Power" and found them of incalculable value in the practical business of life. Many of her own experiences, as well as those of others, are given, and she undertakes to outline a method whereby the ancient teachings may be practiced to the great benefit by anyone even in the hurly-burly of the modern world. The whole subject is so convincing that it is hard to believe that it is not a true philosophy.

THE ONLY WAY TO
END INDIGESTIONRemove the Cause and You
Remove the Pain

Nine-tenths of digestive troubles are caused by food fermentation and excess acid in the stomach, and it is only by ending these conditions that permanent relief can be hoped for.

The quickest, safest and surest way to do this is to take a little "Pape's Diapiesin" after eating or whenever pain is felt. This not only stops fermentation and neutralizes excess acid, but exerts a soothing, healing and strengthening influence on the weakened stomach, and induces normal healthy digestion.

That is why millions everywhere recommend "Pape's Diapiesin." Follow their sound advice—get a 60-cent package of "Pape's Diapiesin" from your druggist at once, and insure stomach health, with the fear of indigestion banished forever.

Peach Blooms at Villa Ridge, Ill. CENTRALIA, Ill., March 27.—The first peach blossoms opened yesterday at Villa Ridge, the Illinois Fruit Growers Exchange announced. The blossoms are 10 days later than last season.

3 Minutes Ends
the Worst Corn

Three minutes ends the toughest, most painful corn or callous when you use Shur-Off. This amazing new remedy stops all pain the instant it is applied; positively will not irritate or affect healthy skin, but so quickly softens the corn or callous that in a few minutes you can easily take it out—root and all. Why use old-time preparations which so often irritate and require several days treatment? Get Shur-Off at any druggist, follow the simple directions and enjoy real foot comfort at once.

Boys and Girls
made Strong
in Two Weeks!

It is what they eat—and how it agrees—that has most to do with the sturdy growth of youngsters. Fruits are fine; don't ask them to their natural wonderful aid is—and no child start this daily remind you of it. you'll see sure digestion, and a rich, fruity liver and bowels. even severe or chronic constipation calls for, and it is fairly regular elimination is begun with the first spoonful of fig syrup; in a few days you will see a clear-eyed and care-free child whose tongue doesn't coat, and whose mind and body are not slowed by sour bile or any other accumulations. It is much the same with a bilious baby; no harm, but only good can come from fig syrup even though given the tiniest infant. So don't use harsh cathartics, even though the children apparently suffer no ill effects. A spoonful of delicious fig syrup is far better. But the genuine California fig syrup is the kind to buy, and if you always say "California" and look for it on the generous sixty-cent bottle, you'll get the pure product.

NEW YORK SYMPHONY
ORCHESTRAS COMBINE

Toscanini, Director of the Philharmonic, Will Be Chief Conductor.

By Leased Wire from the New York Bureau of the Post-Dispatch, NEW YORK, March 27.—The New York Symphony and Philharmonic orchestras have been consolidated. This was announced last night by Clarence H. Mackay, chairman of the board of the Philharmonic Society, after he had reached an agreement with Harry Harkness Flagler, president of the Symphony Society.

The name of the new orchestra will be the Philharmonic-Symphony Orchestra of New York. Arturo Toscanini will be the chief conductor. Willem Mengelberg, conductor of the Amsterdam Philharmonic and joint leader with Toscanini of the Philharmonic under a five-year contract, will lead the new orchestra next season. Walter Damrosch will be a guest conductor.

Since the retirement of Damrosch as conductor of the orchestra founded by his father, Dr. Leopold Damrosch, the New York Symphony has played under a series of guest conductors, including Bernardino Molinari, Maurice Ravel, Fritz Busch and Enrique Fernandez Arbes, conductor of the Madrid Symphony orchestra, the present leader.

A joint announcement from Flagler and Mackay said that both orchestras would be separately financed for the rest of the present season.

The auxiliary boards of the two societies will be consolidated. Mackay will be chairman of the board and Flagler president of the new organization, which has Frederic Juilliard as first vice president, Otto H. Kahn, Marshall Field, Paul D. Cravath and Henry Seligman as vice presidents and Charles Triller and Richard Welling as treasurer and secretary respectively.

The Philharmonic was founded in April, 1842, and as such is the second oldest symphony orchestra in the world. The oldest is the London Philharmonic founded in 1813. The organization was the result of the efforts of Urell Orelli Hill, who gathered under him 43 professionals and amateurs who gave their first concert Dec. 7, 1842.

In recent years the Philharmonic has taken over the National Symphony and City Symphony orchestras.

The New York Symphony was founded in 1878. Damrosch was leader 43 years.

They're
going fast!

St. Louis housewives receiving
400,000 Jell-O Molds free
FROM THEIR GROCERS

6 aluminum Jell-O Molds, individual
size, free with purchase of
6 packages of Jell-O

HOW women are snapping them up! A chance to get fine, durable, aluminum Jell-O Molds direct from your grocer, absolutely free. Simply go to your grocer's, or phone him, and buy 6 packages of Jell-O, at the regular price. Remind him that you want the Molds.

With the Molds you'll get real Jell-O—the luscious, fruit-flavored Jell-O which has been "America's most famous dessert" for over thirty years. Like all good things, Jell-O is imitated. Insist on getting genuine Jell-O, with the name on the package, and you'll never be disappointed. Real Jell-O is always fresh—the huge demand and the cleverly sealed package take care of that. Real Jell-O is always easy to make—always economical—always crystal-clear and colorful. The five flavors come from fresh, ripe fruits. Jell-O is one of the easiest foods in the world to digest. And it's always sure to find a hearty welcome!

With 6 packages of Jell-O, you will receive 6 molds—enough to serve a good-sized family with Jell-O in those beautiful forms which you see pictured in the magazines.

Don't lose this opportunity. It can't last long. St. Louis women are taking advantage of it too eagerly. Molds are being given away by the thousand every day, so 400,000 aren't going to last long! Every woman wants a set.

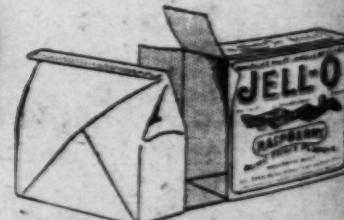

Don't delay on this free Mold offer. Go to your grocer, or phone him today. They're going fast!

NOTE: If it should happen that your grocer has no Jell-O Molds, you can obtain 6 Molds by mailing 6 Jell-O package fronts to the Jell-O Company, Leno, N. Y. To take advantage of this offer, all package fronts must be mailed on or before April 10, 1928.

This is to people who have lost fast in the modern scientific way. And who have gained new beauty, new health and vitality by it. You are even told to tell others the same. The Marmolas probably told you some two decades ago, scientific men discovered a cause of excess fat. They learned why some are thin and some are fat, regardless of how much they eat. They found the way to fight that cause by supplying the body some elements required in nutrition.

They gave Marmola prescription tables embodying that new method. They have now been used for 20 years—millions of boxes of them. You can see the result wherever you look. Slenderness prevailing everywhere. The scientific cause in dress is based on slender figures.

Uses of Marmola are not forced to abnormal exercise or diet, though medical help. They simply take the Marmola daily, and the body adjusts to normal. And new health and vitality comes with that reduction—in an amazing way.

The formula of Marmola comes in every box. Also the reasons for results. The you can just use for good results, and have no fear of harm.

People who are over-fat should start Marmola now. Order a box—before you forget. Learn all the facts about it. Tell your friends. When you are satisfied, tell your friends how to gain them. Don't wait any longer.

*'laxness' often the first sign of
achexia (run-down condition)*

When work becomes a bore and
vices each hour creep in, despair,
it's often due not so much to the
work as to your own impaired
physical condition.

Coming from achexia, a
conscious of their vanishing strength
and vigor, should eat yeast . . .
for this simple food has restored
millions of ailing men and women
to robust health.

The best yeast for eating is
Yeast Foam Tablets. This yeast
is pure, contains no preservatives,
pelllets; it keeps; it is palatable
and it doesn't ferment nor cause
gas. Only 5¢ for the handy packet
or 50¢ for the large 10-day bottle.

eaches (run-down condition).
Loss of appetite. Indigestion.
Constipation. Boils—Pimples.

The advertisement features a black and white illustration. On the left is a glass bottle with a label that reads "YEAST FOAM TABLETS". To the right of the bottle is an open box, also labeled "YEAST FOAM TABLETS", showing several tablets inside. A small arrow points from the text "Loss of appetite. Indigestion. Constipation. Boils—Pimples." to the box. Below the bottle, the text "As strong as any other yeast" is written in a stylized font.

As strong as any other yeast

PART THREE.

A Pyorrhea Specialist Prescribes

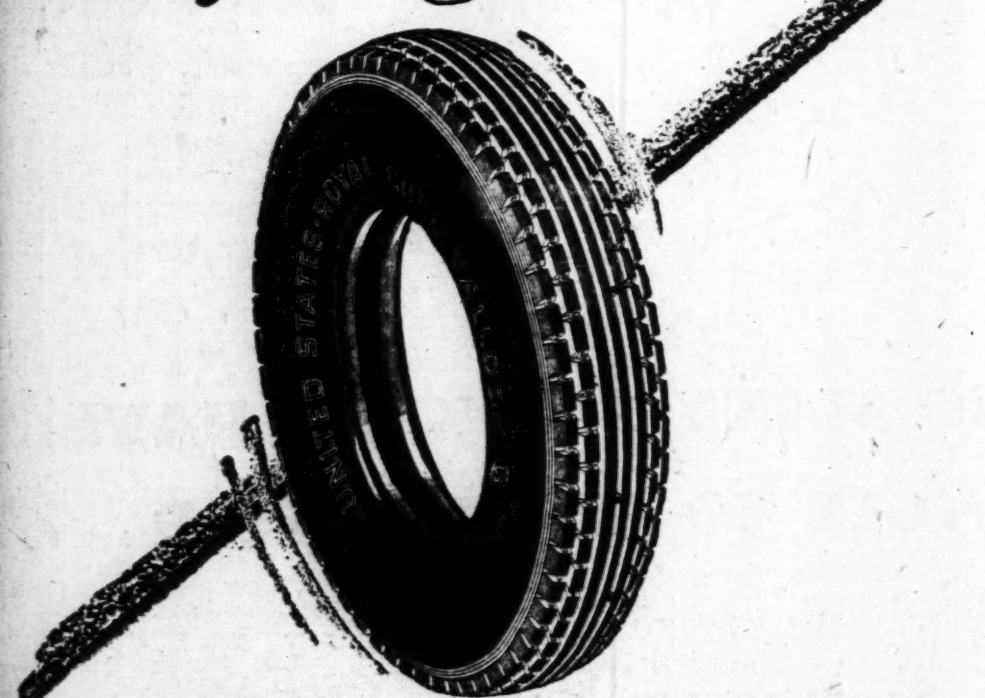

Pyorrhea Cato Tooth Paste was used only by a private prescription to the patient of a well-known specialist. It makes the gums strong. It stops bleeding and swelling by contracting the rapid growth of bacteria in between the teeth and under the gums. Don't let your

bleeding gums go on without doing something for them. Cato is pleasant in taste, but powerfully effective as a germ-killing and "cleansing" agent. After a good brushing, Cato Tooth Paste is sold by all leading druggists—also for a large sale. Use every day—stop bleeding by

Stop Biting
Your Finger Nails
Amazing New Preparation
Breaks Habit Quickly

Science has at last discovered a way to stop the habit of fingernail biting. This dangerous habit makes the fingers and hands unsightly, often causes serious infection. This new preparation, called Thinx, is guaranteed to stop the habit of nail biting, if used persistently. Safe and pleasant to use. At all drug and department stores.

BUSINESS BETTER,
FEWER MEN IDLE,
SURVEY SHOWS

New York World Thinks
 Country Will Escape
 Much of Uncertainty
 Usual in Election Years.

FINANCIERS' VIEW ON
INDUSTRIAL OUTLOOK

Labor Leader, Manu-
 facturers and Government
 Agencies Contribute Facts
 on Situation.

By Leased Wire from the New York Bureau of the Post-Dispatch. NEW YORK, March 27.—The New York World today begins printing a survey of business conditions in the United States, the first article of which in part is as follows:

Business is on the upgrade, with unemployment on the decrease. More than that, business bids fair to escape much of the halting uncertainty that usually has characterized presidential election years.

Thus may be epitomized a carefully organized effort to determine actual conditions in the first quarter of the year and the prospects for the remaining months. To this survey leaders in industry, labor leaders, bankers and national distributors have contributed, as have the leading statistical services. Much also has come from Government agencies.

Exceptions in Some Lines. The survey does not show that business is improving in all lines—bituminous and textiles, where special conditions govern, being outstanding exceptions—but generally speaking the reports show business to be at least as good as in 1927, with improvement and improved prospects reported in the great majority of lines.

The outstanding factors are improvement in the building, steel and automobile industries.

Improvement is also noted in agriculture, especially in the stock-raising branch, which is declared to have emerged from the severe depression that marked the collapse of the post-war boom.

In the building industry, by many considered to be the best barometer of general conditions, the increase in the volume of contracts let in the opening months of the year is marked.

The clothing trades are looking up.

The soft spot in the apparel trades is boots and shoes, where the manufacturers are facing higher prices for leather because of a growing scarcity of hides with demands from the retailers for lower prices.

The Department of Agriculture declares "improvement in agriculture is expected if the farmers avoid expansion of production and continue their effort to balance production with demand."

Among bankers, there is substantial agreement that the volume of business is expanding and that money will continue plentiful and therefore comparatively cheap the balance of the year.

Expansion of the volume of business is reflected in reports of increased car loadings by the railroads and in reports of increase in the volume of checks passing through clearing houses.

Not the least interesting feature developed in the conflict of opinion of the heads of the largest groups of employers and workers, John E. Egeron, president of the National Association of Manufacturers, looking for politics to act as a brake upon business and insisting that wages and profits of retailers must be lowered, while William Green, president of the American Federation of Labor, looks for a good year and insists that wages must advance.

Opinions of Business Men. Following are opinions of authorities in business, finance and labor in brief:

JAMES S. ALEXANDER, chairman, National Bank of Commerce.—Business is now steadily increasing in volume and the outlook is for a better second quarter than last year. The seasonal upswing this year started later than it did in 1927. Conditions in steel, automobiles, building and construction, machine tools, heavy chemicals and electric light and power, all lines peculiarly sensitive to underlying trends, are excellent. The packing industry, agricultural implement makers, cigarette and paper manufacturers, and silk all are enjoying excellent business.

CHARLES H. SABIN, Chairman of the Board, Guaranty Trust Co.—Business as a whole is in fairly good volume. There has been some expansion since the beginning of the year; but the gain has been very unevenly distributed among the various branches of industry and trade. The most significant increase in activity has occurred in the iron and steel industry, where operations are practically up to the high level of a year ago.

CHARLES S. MCIN, President, National Park Bank.—The condi-

tion of the South is better, in my opinion, at this time than at any time since 1919.

GEORGE D. EVERITT, President Montgomery, Ward & Co.—

Looking Forward

A YOUNG life that has its greatest span yet to live may depend upon your guidance, your financial aid.

You may be able to look backward and see your own mistakes, your own lost opportunities.

Likewise, you should be able to look forward and plan for this young life better things than you, yourself, have known. Plan that it may avoid your mistakes, grasp opportunities such as were lost to you.

Money is not an object in itself, but it is perhaps more effective than any other one agency in obtaining an education, cultural advantages—many things which lead to happiness and a useful life.

Save for the life that is in your charge. Use a savings account. Buy safe, non-speculative bonds. Carry ample life insurance. Protect your insurance and your estate with a trust agreement, so that your plans will be carried out whether you live or not.

Then—and then only—you have done your duty. Now is the time to look forward!

MISSISSIPPI VALLEY TRUST CO.

TWO INNINGS HAHN AND CONGER WILL COMPETE IN TWO EVENTS AT OLYMPIC GAMES

FRANK JOHNSON TOLD TO RUN FOR 1500 MILE CROSS COUNTRY RACE LEADER

Granite City Runner Elapsed Time in 3400 Miles Cross Country Race Is 240 Hours, 14 Minutes

Special to the Post-Dispatch. OLD LAGUNA PUEBLO, N. M., March 27.—Those middlewesterners know that it won't be long now until they are speeding through their home districts, "cross country" style, declared as his New York bound race runner hasted down the desert trail to the twenty-fourth control today.

Forty-eight miles, as the cross files, is the distance between Old Laguna Pueblo and Los Lunas, but over the washboard desert road the day's efforts is far more exacting.

Runners and walkers who are holding their own in the battle against time and the elements during their time for the yesterday's 32.9 miles jaunt between Granite and Old Laguna and their elapsed times include:

Andrew Payne, Claremore, Okla., 5:02:30-139:21:47.

John Guber, Moberly, Mo., 5:18:20-219:18:40.

William Kerr, Minneapolis, Minn., 5:22:30-158:21:54.

James White, Duluth, Minn., 5:02:30-187:31:20.

Kenneth Campbell, Ranger, Tex., 5:25 flat-195:51:35.

Walter Grafsky, St. Paul, 9:03:20-145:05:27.

Frank Johnson, Granite City, Ill., 9:41 flat-240:14:40.

Wildfire Thompson, Berryville, Ark., 9:43:30-249:46:20.

The leaders with their total elapsed times are:

1—Arne Souminen, Detroit, 139:44:00.

2—Andrew Payne, Claremore, Okla., 139:21:47.

3—Peter Gavuzzi, Southampton, 139:42:16.

4—John Cronick, Saskatoon, 142:54:12.

5—Vaght Hoffstater, Manistee, Mich., 151:18:25.

William Kerr, Minneapolis, 158:21:54, is in tenth place.

Fight Program Postponed

CHICAGO, March 27.—The 14-round bout between Pietro Corbelli and Les Marriner, scheduled for last night has been postponed until Thursday. Les Marriner, University of Illinois football player, will meet Harvey Mortenson as an added attraction.

ESTER PROBST TO BE WITHDRAWN FROM COMPETITIVE SPORTS

Chatter Probst, son of Robert Probst, president of the Western Athletic Union, who was withdrawn from the Washington Interscholastic Athletic Union meet Saturday, by school authorities, when records showed he is over the 20-year-age limit, will not take part in competitive sports for the next two or three years, his father said today.

Probst was to represent the school in the middle-distance event, Maplewood High, another year in the meet, protested that he was over the age limit. Records at the school indicated he had not reached his twentieth birthday, according to Karl Probst, principal, but a further investigation from several other sources proved that the boy reached 20 on Feb. 4, he said.

Probst was then withdrawn. The young athlete's father, in giving his reasons for withdrawing his son from future competition, said his son had been dealt with unjustly.

"My son is too good for others his own age, and they framed him," said Probst. "It is too much to ask him to compete against athletes older than himself, so I am taking him out of competition."

Young Probst is a senior, and it was expected that no future action would be taken in the matter.

LINDENMEYER TO COACH CENTRE FROSH

COLUMBIA, Mo., March 27.—C. Lindenmeyer, all-American tackle in 1925 and now assistant coach of Missouri, announced today that he had accepted a position with the Centre College coaching staff in Danville, Ky.

Lindenmeyer will be freshman football coach and probably assistant coach of the Centre varsity squad which plays the season's opener at Missouri here next fall.

Boxing Legalized in State of Mississippi

JACKSON, Miss., March 27.—Governor Bilbo today signed a House bill legalizing boxing in Mississippi under the supervision of a state athletic commission.

Spears to Coach

CHATTANOOGA, Tenn.—Bill Spears, All American quarterback in 1927, will coach the football team at McCallie prep school at Chattanooga next fall.

Jonard Is Released

PORT MYERS, Fla., March 27.—After eight years of conscientious effort, Howard Ehmke, landy right-hander of the Philadelphia Athletics, believes he has mastered the "hesitation pitch" and looks for his fifteenth season in the American League to be the best yet.

Manager Mack announced that Claude Jonard, pitcher, had been returned to the Milwaukee club of the American Association, from which team he was purchased last fall.

Phillies Start North

WINTER HAVEN, Fla., March 27.—The Phillies break camp today and head for the home town, where they are due Thursday. During the last days in Florida the Phils found their collective batting eye and the pitching tightened noticeably. A little more attention to the real business of playing ball, Manager Shotton believes, will put the team on edge for the annual city series with the Athletics.

Sweeney Still With Reds

ST. PETERSBURG, Fla., March 27.—Red Sweeney, rookie pitcher, is still with the Cincinnati Reds, the Spartanburg club of the Carolina League having notified Manager Jack Hendricks that they could not use him.

The game scheduled with the New York Yankees today was the outsider will do some hard slugging to put the Giants in front at the outset of the National League drive. Roush performed in great style before his chief yesterday, whacking out three triples in New York's 7 to 1 decision over the Red Sox. McGraw has booked an additional game with the Red Stockings for tomorrow.

Robins Manager Is Peered

WEST PALM BEACH, March 27.—Wilbert Robinson, the rotund general of the Brooklyn Robins, is peeved because Bert Shotton, Phillies manager, has picked his club to beat out the flock in the National League pennant pursuit.

"The only comeback I can make after that one is to say that Bert must think his club is going to win the pennant because everyone is saying we will be the team that will bear watching when the dog days roll around," declared Robins.

Jonard Is Released

PORT MYERS, Fla., March 27.—After eight years of conscientious effort, Howard Ehmke, landy right-hander of the Philadelphia Athletics, believes he has mastered the "hesitation pitch" and looks for his fifteenth season in the American League to be the best yet.

Manager Mack announced that Claude Jonard, pitcher, had been returned to the Milwaukee club of the American Association, from which team he was purchased last fall.

Phillies Start North

WINTER HAVEN, Fla., March 27.—The Phillies break camp today and head for the home town, where they are due Thursday. During the last days in Florida the Phils found their collective batting eye and the pitching tightened noticeably. A little more attention to the real business of playing ball, Manager Shotton believes, will put the team on edge for the annual city series with the Athletics.

Sweeney Still With Reds

ST. PETERSBURG, Fla., March 27.—Red Sweeney, rookie pitcher, is still with the Cincinnati Reds, the Spartanburg club of the Carolina League having notified Manager Jack Hendricks that they could not use him.

The game scheduled with the New York Yankees today was the outsider will do some hard slugging to put the Giants in front at the outset of the National League drive. Roush performed in great style before his chief yesterday, whacking out three triples in New York's 7 to 1 decision over the Red Sox. McGraw has booked an additional game with the Red Stockings for tomorrow.

WRAV'S TUNNEY GIVEN SEVEN DAYS TO NAME OPPONENT

New York Board Will Not Permit Bout With Dempsey as a "Purely Financial Transaction."

Man of War Must Wait.

NEITHER Man of War nor any of his get has won a Kentucky Derby. That may be explained. Man of War himself and all of his famous offspring failed to go to the post for this great classic.

At the top of his racing career, Man of War, in 1920, could have romped home, according to form facts. He opened his campaign that year in the Kentucky Derby, and Paul Jones won the event, beating Upset and On Watch.

Incidentally, this Upset was the only horse ever to beat Man of War, he having nosed out the son of Fair Play as a 2-year-old, in a race in which Man of War was practically left at the post.

No Derby Luck.

SINCE his retirement, however, Man of War has begotten several truly great horses, some of them capable of winning the Derby. American Flag and Crusader, champions of their 2-year-old campaigns, were not shipped to Kentucky, and missed their chances. Soaps Flow, a great Man of War 2-year-old, Edith Cavell, Flagship and others failed to go to the Derby.

It seems strange that, among the array of great names of Man of War descendants, no worthy representative should have reached the barrier in a Derby.

No Hope This Year.

THIS year there is even a sliver of chance that a Man of War offspring will be heard from. Only four of his "get" have been named for the Derby—Gene, Ironsides, War Whoop and War Flier. Combined, they have won but three races. War Whoop taking two and Ironsides one. War Flier has not been to the post. He is owned by Mrs. G. F. Vanderbilt, and is an unknown quantity.

Still Going Strong.

MAN OF WAR's value as a sire has not weakened, however, as is shown by the record of his racing offspring last year. He ranked seventh among the money-winning sires of 1927, with \$210,872. Strange to say, the leading money sire of the year was Fair Play, with \$561,518.

Fair Play was the daddy of Man of War.

Ouch! My Sore Lip!

NOT so many weeks ago, Allen Hall, three-cushionist, was quoted in a Brooklyn publication as being totally "unable to explain the strange jinx he held over Willie Hoppe," in match billiard games.

Allen may find it still harder to explain what happened to said jinx in the match concluded Saturday night, in which Hoppe did everything to Hall that mortal opponent could do.

Our explanation as to what happened was that Willie "took the jinx for a ride."

But there will be no inquest. The deceased died a natural death.

Class Pin Meet Entries Close

Annual City Association Tourney Will Be Held at Park Alleys.

Entries for the Annual Class Tournament of the City Association close Wednesday. The event will be staged at Heidelberg's Park Recreation Parlor, 2032A Park avenue and entries may be sent to Secretary Winchell, care of Heidelberg's. Many leagues are entering their entire teams and a record entry is anticipated.

Boxing Legalized in State of Mississippi

JACKSON, Miss., March 27.—Governor Bilbo today signed a House bill legalizing boxing in Mississippi under the supervision of a state athletic commission.

Spears to Coach

CHATTANOOGA, Tenn.—Bill Spears, All American quarterback in 1927, will coach the football team at McCallie prep school at Chattanooga next fall.

Jonard Is Released

PORT MYERS, Fla., March 27.—After eight years of conscientious effort, Howard Ehmke, landy right-hander of the Philadelphia Athletics, believes he has mastered the "hesitation pitch" and looks for his fifteenth season in the American League to be the best yet.

Sweeney Still With Reds

ST. PETERSBURG, Fla., March 27.—Red Sweeney, rookie pitcher, is still with the Cincinnati Reds, the Spartanburg club of the Carolina League having notified Manager Jack Hendricks that they could not use him.

The game scheduled with the New York Yankees today was the outsider will do some hard slugging to put the Giants in front at the outset of the National League drive. Roush performed in great style before his chief yesterday, whacking out three triples in New York's 7 to 1 decision over the Red Sox. McGraw has booked an additional game with the Red Stockings for tomorrow.

Gene Can't Name An Opponent, Says Rickard

MIAMI BEACH, Fla., March 27.—GENE TUNNEY could not accept the challenge now on file with the New York State Athletic Commission if he wanted to, Tex Rickard, promoter, declared here today.

The promoter said that the matter was entirely in his (Rickard's) hands.

"Tunney stands ready to fight any man I name, but I do not feel that the commission has any right to force me to name an opponent at this time," the promoter said.

"The affair is in my hands, not Tunney's."

The champion could not be located.

Western A. A. U. Track and Field Officials Named

District Events of Saturday Night at Coliseum Draw 338 Entries.

Joe Forshaw was named referee and Robert L. Probst starter, for the Western A. A. U. indoor field and track championships, at a meeting last night of district field and track officials. The meeting, which will be held Saturday night at the New Coliseum, has attracted 338 individuals to date and indications are that related entries will increase the total to approximately 600.

Among 40 other officials selected at last night's meeting were: Maj. M. J. Pickering, John C. Meyers, W. E. Eberhardt, Jerome Karst, Paul Brown and Harry S. Sharpe. Judges of time: Irvin Biel, P. A. Bates, Henry Davidson, and Carl Forline, clerk of the course: Clarence Henry, Charles Nelson, John O'Brien, Bob Leacock, Tom Hennings and Charles Stephens, timers.

St. Louis University Filed Entries

St. Louis University filed entries yesterday for a team of five athletes, while additional team entries were received from McKendree College of Lebanon, Ill., the State Teachers College of Springfield, Mo.; Lincoln University of Jefferson City, Mo.; Soidan, Cleveland, Roosevelt and St. Charles High Schools.

An entry filed by Emmett Walls, crack Negro sprinter from Lincoln University, should stimulate interest in the 50 and 100-yard dash events of the open championships. Walls gave Loren Murchison, a great battle in the 60-yard sprint a year ago when the latter was forced to equal the world's indoor record for the distance to beat the dusky Lincoln flyer.

Peckinpaugh Is Worried

CLEVELAND, March 27.—With only one more week remaining of the Cleveland Indians stay at New Orleans, Manager Peckinpaugh is worrying over the problem of which rookies will make up the dozen or so that must be turned loose. The tribe has an unusually large surplus this year and Peck is having a real problem in finding suitable farming grounds.

New Hurler for Tigers

SAN ANTONIO, Tex., March 27.—The strength, speed, reach and ambition of Charlie Sullivan, Detroit recruit pitcher, has aroused the interest of Manager George Moriarty indicating the possibility that the Tigers may display a new moundman in the American League circuit this season.

Braves Get 24 Hits

PORT MYERS, Fla., March 27.—The Braves may not make the first division this year but if they don't it will be no fault of the batsmen. That much seemed clear after the bombardment the warriors handled on Levee Mack's Athletics here yesterday. They hung up 24 hits to win 13 to 6. Manager Jack Slattery's chief aim now is to get his pitchers to the point where they will be effective for nine innings.

Another Frank Homer

AUGUSTA, Ga., March 27.—The Boston Red Sox are agreed it would be a bad break for them if the New York Giants and they were playing in the same league this year. The Sox took a wallop here yesterday to a 7-1 score. Characteristic of the jinx that seemed to light on the Sox was Freddy Lindstrom's home run, the only one of the game. Arlie Tarbert, Sox left fielder, thought he had the ball safely snared when he backed against a barred fence. Tarbert bumped the gate open, missed the ball and Lindstrom romped home.

Bobby Jones Says

Short Game More Difficult.

ALMOST always it seems that the short game is the hardest part of golf for a beginner to learn. If he is reasonably strong and active he will soon become able to hit the ball well enough off the tee and through the fairway. But the delicate little strokes around the hole—putts, chipping, chip shots, and putts—will mystify him.

Not long ago, I played with a friend who has been playing golf for several years but is still in the class I have mentioned above. I remember particularly his play on a hole measuring something like 500 yards. My friend covered all but 50 of those yards with two fine shots. From that point he required six more to hole out, giving him an eight, a seemingly impossible score, especially since he became involved in no unusual difficulties.

Usually the ninety-to-a-hundred yarder wastes a good many strokes within a 40-yard radius of the hole. A few in that class are really good putters, and a few are accredited good putters because they have a few good days. But for the most part, the high-handicap man has little idea what he is trying to do when he is on the green or barely off.

Should Always Be Same.

IN playing a chip-shot or putt, the range or speed of the rolling ball is most important. The ball must be struck a true

chip or putt, the club should finish near the ground, having traveled from impact almost horizontally instead of abruptly upward. I consider that to be the keynote of true hitting around the green. In the first place, it increases the margin for error because the club-head remains longer in the plane of the ball; and in the second place, there is less likelihood that the face of the club will be turned away from the line.

Now, what to do in order to "flatten the arc." As I have described the swing in which the wrists only are used, the sharp, ascent of the club is caused by the stationary left forearm. That member remaining in its place, forces the hands and wrists to break abruptly upward with a most uncomfortable movement. To flatten the arc and to cause the club-head to finish low it is only necessary to allow both hands and arms to go forward with the club as the ball is struck. The motion does not need to be forced. It will take place naturally enough if the left arm be relaxed.

This does not mean that it is incorrect to say that the short chips and putts are played entirely with the wrists. There should be practically no arm motion throughout the stroke until the ball is hit. The motion of the hands and arms which I have described above, begins almost precisely at the moment of impact. There is in the stroke no motive force supplied by the arms.

(Copyright, 1928.)

Morrison New Captain.

By the Associated Press. URBANA, Ill., March 27.—Allie Morrison, Western Conference and national A. A. U. 135-pound wrestling champion, last night was elected captain of the University of Illinois wrestling squad, succeeding Pete Hosmer, who led the championship 1928 team.

Goldberg and Fryer Meet in Bout Tonight

Scheduled to Go 10 Rounds in Another Feature in East Side Show.

Eddie Goldberg, popular local star, meets Dwight Fryer, of Little Rock, Ark., at 140 pounds, while Ray Alfano of East St. Louis mixes with Tommy O'Laughlin of Springfield, Ill., at 130 pounds in the 10-round decision contests which feature A. G. Weissman's boxing carnival at the Almad Temple, East St. Louis, tonight, under the supervision of the State Athletic Commission.

The two bouts promise to be closely contested. Goldberg is clever and a hard hitter and Fryer, his opponent, has compiled a good record in the year he has been in the professional ranks.

Hard hitting seems certain in the other half of the double wind-up, as both Alfano and O'Laughlin depend upon their ability to take as well as give punishment. Science will certainly be absent.

Clarence "Kid" Shaulter, clever boxer from Scott Field, meets Vic Windle, rugged and hard hitting St. Louisan, in the 8-round semi-final at 155 pounds; Jimmy Little and Buddy Schlereth, aggressive Mound City products, battle in the 6-round preliminary at 138 pounds and Sherry Willie and Jesse James, Negro lightweights of St. Louis, entertain in the 4-round curtain raiser.

HEIDELBERG ELEVEN HAS WON 17 OF 18 GAMES PLAYED THIS YEAR

TEAM WILL MEET LOCAL OLYMPIC SQUAD, SUNDAY

Pittsburg Amateurs Have Scored Total of 88 Goals Against but Five for Opposition.

Special to the Post-Dispatch.
PITTSBURG, Pa., March 27.—Western Pennsylvania's crack amateur soccer team, the Heidelberg eleven, will represent the Pittsburgh district in the Olympic trial match at St. Louis next Sunday. The team which visits the city on the banks of the Mississippi is not a "picked" team, but a regularly organized club of several years experience, winners of the National Amateur championship competition, last May.

Thirteen members of the party making the St. Louis trip form the Heidelberg soccer club, whose brilliant record in recent years has gained them the sobriquet of "The Golden Tornado." In addition there will be two substitutes selected from the best material in the West Penn jurisdiction. E. J. Balsarin, manager of the Heidelberg club, and Harry H. Fairfield, president of the West Penn Football Association, who will conduct the party.

Heidelberg to Start Game Intact.
It is expected that the Heidelberg club will take the field intact when the game starts. Under the substitute rule, the four reserve players will be afforded an opportunity to show their wares sometime during the game.

Starting as a junior outfit about eight years ago, the Heidelberg club won the championship of its league with such monotonous regularity that it transferred its operations to the Keystone Miners League, a much tougher school of endeavor, and promptly forged its way to the front.

In 1925, the club won the championship trophy of the West Penn Football Association, and only failed to capture the National Amateur soccer championship by a hair. The Defenders Club of New Bedford, Mass., although out-

SPORT SALAD

Cohen at the Bat.
THE home team was facing a crisis. The score was a tie with two out. And the Giants would lead in the battle if Casey delivered a clout. All ready and eager to wallop the pellet right smack in the eye. The batter stood there at the plate. Resolved to deliver or die. But just at this critical juncture, the manager held up his hand. And forthwith went into a huddle with his strategists under the stand.

A switch in the batters was ordered. The manager being afraid

classified, managed to get a break in the last 20 seconds of play which enabled them to score, the only goal of the game. However, the next season Heidelberg got their revenge, for at Pittsburg last May they decisively trounced the La Flamme Cobblers, also of New Bedford, by three goals to none, thus achieving the proud title of National Amateur champions.

This year Heidelberg met with a stroke of bad fortune. On March 4, they took the field in a blinding snow storm, which blew directly in their faces, and were defeated by the American Magyars at Cleveland, thus losing their National title.

Scored 88 Goals in 18 Games.
Heidelberg won the championship of Western Pennsylvania just a week ago, by decisively beating the crack Rovers team of Pittsburg, 6, to 2, and also won the championship of the Press American League, consisting of ten clubs, with the extraordinary record of 17 victories, one defeat, 83 goals for and five against. It will be seen that the goal average per game is slightly less than Bedford, Mass., although out-

CLEVELAND STAR TOTALS 1931 IN A. B. C. TOURNEY

Kraut Takes Second Place in All-Events, While Scribner of Detroit Rolls Into Third.

Special to the Post-Dispatch.
KANSAS CITY, Mo., March 27.—Although many stars, including Charley Daw of Milwaukee, Jimmy Smith of St. Louis, the Caruana Brothers of Buffalo and other topnotchers have yet to perform in the A. B. C. tourney, the chances are that the present leaders will hold their own.

While high totals have been posted in the doubles, there is nothing in either the five-man event, singles or all-events worth wiring home about. At least one new high mark was predicted early in the show, but nothing has happened.

Secretary Abe Langtry said last night that the following scores were still in the money: Five-man event 2578; doubles 1110; singles

565 and all-events 1800. As a result, a number of pinasters will be surprised with a pay check when the show closes April 2.

While several choice spots were obtained among the high 10 leaders, the general scoring in yesterday's play was not up to A. B. C. standard. Vic Kraut of Cleveland furnished the best shooting of the day when he piled up a 1931 total to land six pins back of Phil Wolf for the all-events lead. Joe Scribner, Detroit, has 1923 for third and Joe Bodie, Cleveland, pulled up with a mark of 1839 to take sixth place in the same division.

Art Dingwell and Joe Scribner, veteran Detroit pinasters, rolled into third place in the doubles division with a 1216 mark. Both men shot consistently. Scribner chalking up 674, while his partner was totaling 642. Walter Ward and Ben Suchan waited 1232 to take tenth berth in the duo event.

Two Honors for Cuyler.
LOS ANGELES, Cal., March 27.—The bat of Kiki Cuyler has led the Chicago Cubs to another exhibition game victory. Driving out two home runs and a single, which accounted for four runs, the former "bad boy" of the Pittsburgh Pirates, scintillated as the Cubs beat Los Angeles, 11 to 5, yesterday. During the Cubs' training season, Cuyler has hit above a .500 average. Hack Wilson, co-holder of the National League home run championship for 1927, and Norman McMillan, rookie, also hit for the circuit.

RACE DRIVER PLANS SECOND BID FOR NEW WORLD SPEED RECORD

By the Associated Press.
NEW YORK, March 27.—Undaunted by the failure that nearly cost his life in his first attempt a few weeks ago, Ray Keech of Philadelphia, dirt track race pilot, plans another bid for a new world's auto speed record next month in J. M. White's 1500 horsepower triplex.

Keech is on his way to Daytona Beach where he hopes to shatter the existing record of 206.95 miles an hour set on Feb. 19 by Capt. Malcolm Campbell of England. Keech's trials, under sanction of the American Automobile Association, are to be held between April 1 and 5.

HOPPE WINS FIRST TWO BLOCKS OF HIS MATCH WITH COPULOS

Special to the Post-Dispatch.
NEW YORK, March 27.—Gus Copulos, Detroit cue wizard, is no longer Willie Hoppe's master at three-cushion billiards.

Copulos, who had won from Hoppe three times in four previous matches, lost the first two blocks of his 600-point match with the American Three-Cushion League champion here. The scores were 50 to 47 and 50 to 31. Copulos made two high runs of five, while Hoppe reeled off an eight and a six.

FIVE NEW MARKS ESTABLISHED IN SWIMMING MEET

Miss Fauntz, 16-Year-Old Girl, Sets Standards for 100 Yards and 100 Meter Races.

By the Associated Press.
CHICAGO, March 27.—Sixteen-year-old Jane Fauntz of the Illinois Women's Athletic Club who many critics were certain would never "come back" because of an automobile accident last summer, today held two new world's swimming records.

Leading the I. W. A. C. to an easy 43 to 16 triumph over the Canadian champions, the Parkdale Dolphins of Toronto, last night, Miss Fauntz shattered the international records in the 100-yard and 100-meter breast strokes. In addition Violet Martin, broke the National mark in the 40 yards back stroke and Walter Lauffer, Lake Shore Athletic Club, Chicago, who

swam in a special event, set his own two-year-old National record in the 300-yard medley swim. The new and old records:

100-yard breast stroke: New record by Miss Fauntz, 1:20.4. Old record by Agnes Goss, New York, 1:20.4.

100-meter breast stroke: New record by Miss Fauntz, 1:20.4. Old record by Miss Goss, New York, 1:20.4.

40 yards back stroke: New record by Miss Fauntz, 27 seconds. Old record by Miss Goss, New York, 27 seconds.

300-yard medley swim: New record by Lauffer, 3:45.2. Old record by Lauffer, 3:45.2.

TIGER PISTOL TEAM THIRD IN U. S. EVENT

COLUMBIA, Mo., March 27.—The University of Missouri team placed third in the open tournament of the National Rifle Association with a score of 2245, announced here yesterday.

The Brooklyn Rifle club and Pasadena Pistol and Rifle club were first and second respectively. Missouri defeated the Ohio State university marksmen 1423 to 1340 in a recent dual match, it was announced.

"Luckies Do Not Affect My Wind," Says Paul Waner, Voted National League's Most Valuable Player In 1927

"When I first started to smoke I was anxious to find a cigarette that would give me pleasure without taxing my wind or irritating my throat. I soon discovered Lucky Strikes. I am very fond of the excellent flavor of these cigarettes and they keep my throat clear and do not affect my wind in the least."

The Cream of the Tobacco Crop

JUNIOR BILLIKENS RETURN FROM U. S. CATHOLIC TOURNEY
The St. Louis University High basketball team is home today from Chicago, where it reached the final of the National Catholic High School tournament, being defeated Sunday night for the championship by De La Salle High of Joliet, Ill.

Two trophies were brought back from the tournament by the Junior Billikens, one for finishing in the runner-up position, and the other for overcoming the greatest lead and winning a game in the second half. This trophy was earned in the St. Louisans' game with Roman Catholic High of Philadelphia, which was leading at the half 8 to 5, when the Junior Billikens put on a late rally and nosed out a victory.

Ralph Hemp, the St. Louis U. High captain, was placed on the all-star tournament five.

KINSEY, UNDA AND TAPIA WILL COMPRISE MEXICO CUP NET TEAM
By the Associated Press.
MEXICO CITY, March 27.—Mexico will have a three-man team in the Davis Cup contests with the United States here. It will be composed of Robert G. Kinsey, former Californian, Alfonso Unda and Ricardo Tapia.

Tapia is only 13 years old, but Kinsey, who has been coaching him for several years, considers him the most promising player in Mexico. He and Kinsey played the doubles together in Mexico's Davis Cup series with Japan at St. Louis last year, and they are expected to team up against the United States doubles team, Unda and Kinsey will appear in the singles.

The three began working out in earnest yesterday and they will continue intensive training until the eve of the contest.

Wagner Defeats Trabon.
By the Associated Press.
ROCHESTER, N. Y., March 27.—Eddie (Kid) Wagner of Philadelphia, won the decision over Joe Trabon, Kansas City, in a fast 10-round bout here last night. The bout was in doubt until the eighth round when Wagner took the lead and pounded out a victory. Wagner weighed 127 and Trabon 140.

McCarthy Beats Chaney.
CHICAGO, March 27.—Jack McCarthy of Chicago eliminated another obstacle in his quest for a try at the welterweight title by winning a referee's decision over Joe Chaney of Baltimore in a slow 10-round bout last night.

DRUGS EXCITE THE KIDNEYS, DRINK WATER

Back Hurts or Bladder Is Troubling You, Take a Little Salts

When your kidneys hurt and your back feels sore don't get scared and try to load your stomach with a dose of drugs that excite the kidneys. Irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salt. Salts help to remove the body's waste and stimulates them to normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 gallons of acid and waste, so we can really understand the vital importance of keeping the kidneys active. Drink lots of good water—you can't drink too much. Take four ounces of Jad Salts before breakfast each morning for a few days and your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help clean and stimulate clogged kidneys; to neutralize the acids in the system so they are no longer a source of irritation, thus often relieving bladder weakness.

Jad Salts is inexpensive; cannot be over-dosed; makes a delightful effervescent lithia-water drink, which everyone should take now and then to help keep their kidneys clean and active. This; also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

BUSINESS BETTER, FEWER MEN IDE, SURVEY SHOWS

Continued From Page 19.

shows a slight increase in dollar
 value as compared to a year ago,
 and we are hopeful that business
 will continue to show some in-
 crease.

THOMAS S. HOLDEN, vice pres-
 ident, F. W. Dodge Corporation, a
 building and engineering contracts
 awarded to the 37 states east of the
 Rocky Mountains in January to-
 taled \$427,167,790. This was an 11
 per cent increase over January,
 1927, and was the second largest
 January total on record. Contracts
 awarded in the same territory from
 Feb. 1 through Feb. 24 amounted
 to \$269,921,000. This represented
 a daily average of nearly \$19,500,
 000 thus in February, compared
 with a daily average of \$17,168,000
 in February last year.

WILLIAM J. MCKORLEY, pres-
 ident, Building Trades Department,
 American Federation of Labor,
 the outlook for 1928 in so far as
 the building industry is concerned
 is very promising. We have learned
 from the best available data gath-
 ered from more than 400 cities
 throughout the United States that
 there was an increase during Janu-
 ary, 1928, over the same period in
 1927, of between 7 1/2 and 8 per cent
 in building contracts awarded, and
 from the same sources we learn
 that February, 1928, shows a large
 margin of increase of contracts
 awarded over the same period of
 1927.

To Dedicate Champ Clark Bridge.
 By the Associated Press. March 27.—
 LOUISIANA, Mo., March 27.—
 The Champ Clark Memorial Bridge
 now nearing completion across the
 Mississippi River here, will be
 dedicated June 9, it was announced
 today. Arrangements are being
 made to entertain a crowd of 20,
 000. The governors of Missouri
 and Illinois and other states, the
 two Missouri Senators, the Mayors
 of Chicago and Kansas City, and
 100 other cities will be invited to
 attend.

ST. LOUIS
POST-DISPATCH. 27

A black and white line drawing of a hand holding a thick stack of banknotes. The hand is shown from the side, with the thumb and index finger gripping the edges of the money. The banknotes are stacked neatly, with the top note showing a circular design, possibly a seal or logo. The drawing is simple and illustrative, typical of a newspaper advertisement.

STOCK LIST BREAKS WIDE OPEN, REACTS

Late Bulge in Radio That Carried It Up to New High Encourages Buying of Other Stocks—Trade Volume Sets New Record.

STOCK MARKET AVERAGES	
30 Industrials	134.70
400 Common	134.70
1000 Common	134.70
1000 Preferred	134.70
1000 Bonds	134.70
1000 Stocks	134.70
1000 Shares	134.70

The New York Stock Exchange today opened with a spirited recovery following a late bulge in radio that carried it up to new high. The rally was followed by a heavy speculative position created after three weeks of almost steady rising prices. Stiffening time money rates and renewed warnings by bankers and conservative commission houses against excessive speculation may have been contributing factors.

An opening decline in General Motors, instead of the widely expected initial bulge to 200 or over, undoubtedly was largely responsible for the early flood of selling orders. Several of the independent motors, including Chrysler, Packard and Studebaker, had advanced to new high records on opening sales. After a 10 minute decline, the first sales of General Motors appeared at 175, followed by Chrysler at 185-186, the lower figure representing an overnight drop of nearly 3 points. This apparently reversed scores of stop loss orders and motors quickly plunged down toward 80, dropping from 155 to 130 between sales.

Sweeping Decline.
The break in General Motors was quickly followed by a floor of 170 and in other issues, with the result that a sweeping decline was under way in a few minutes. Du Pont dropped from 34 1/2 to 33 1/2, U. S. Steel from 15 1/2 to 14 1/2, Hudson from 9 1/2 to 9, Hupp from 3 1/2 to 3, Montgomery-Ward from 14 1/2 to 14, and Sears-Roebuck from 11 1/2 to 11. Similar recessions took place throughout the list.

Supporting issues, especially supplied, checked the decline and setting in motion a general recovery. General Motors rallied to 180 1/2, Du Pont to 34 1/2, U. S. Steel to 14 1/2, Hudson to 9 1/2, and Sears-Roebuck to 11 1/2.

Meanwhile, new leaders were brought forward in an obvious effort to revive confidence. New York Central and Rock Island were bid up to new high records of 17 1/2 and 11 1/2, respectively. Sinclair was bought in enormous amounts on a rising scale, touching a new peak of 2 1/2. There were unconfirmed reports of buying for control by Standard Oil interests.

Radio to 160.
Radio was the spectacular individual feature. Dropping to 14 1/2 in the opening break, the stock subsequently rallied to a new high level for all time at 16 1/2, closing at 16 1/2 for a net gain of 1 1/2 points on the day. Net gains of 3 points or more also were recorded by Case, following Chrysler, Packard, Commercial Solvents, Gabriel Snider, Hershey, Chocolata, Howe Sound, International Harvester, Montgomery-Ward, Simmons, Co. and Stone-Island.

Call money advanced to 4 1/2 per cent at day's close. Banks called about \$5,000,000 in loans presumably in anticipation of heavy money and commercial paper rates were unchanged.

Foreign exchanges ruled slightly lower with the exception of Japanese yen, which recovered 27 points of the 12 hour yesterday. Sterling cables ruled at \$4.85-2 1/2.

Commodity markets moved within narrow and irregular limits, final quotations showing few important changes for the day.

SHARES SOLD

NEW YORK, March 27.—Total sales, 4,762,400 shares, compared with 4,116,200 yesterday, 3,648,100 a week ago, and 1,972,500 a year ago. Total sales from Jan. 1 to date 17,655,800 shares, compared with 17,435,000 a year ago.

The New York Stock Exchange today opened with a spirited recovery following a late bulge in radio that carried it up to new high. The rally was followed by a heavy speculative position created after three weeks of almost steady rising prices. Stiffening time money rates and renewed warnings by bankers and conservative commission houses against excessive speculation may have been contributing factors.

An opening decline in General Motors, instead of the widely expected initial bulge to 200 or over, undoubtedly was largely responsible for the early flood of selling orders. Several of the independent motors, including Chrysler, Packard and Studebaker, had advanced to new high records on opening sales. After a 10 minute decline, the first sales of General Motors appeared at 175, followed by Chrysler at 185-186, the lower figure representing an overnight drop of nearly 3 points. This apparently reversed scores of stop loss orders and motors quickly plunged down toward 80, dropping from 155 to 130 between sales.

Sweeping Decline.
The break in General Motors was quickly followed by a floor of 170 and in other issues, with the result that a sweeping decline was under way in a few minutes. Du Pont dropped from 34 1/2 to 33 1/2, U. S. Steel from 15 1/2 to 14 1/2, Hudson from 9 1/2 to 9, Hupp from 3 1/2 to 3, Montgomery-Ward from 14 1/2 to 14, and Sears-Roebuck from 11 1/2 to 11. Similar recessions took place throughout the list.

Supporting issues, especially supplied, checked the decline and setting in motion a general recovery. General Motors rallied to 180 1/2, Du Pont to 34 1/2, U. S. Steel to 14 1/2, Hudson to 9 1/2, and Sears-Roebuck to 11 1/2.

Meanwhile, new leaders were brought forward in an obvious effort to revive confidence. New York Central and Rock Island were bid up to new high records of 17 1/2 and 11 1/2, respectively. THE WAY —OF— A WOMAN

—By—
Marguerite Mooers Marshall

THE AMERICAN CREDO.
(With the usual apologies to Messrs. Mencken and Nathan.)
PROVISIONAL estimate by the Census Bureau has just placed the population of the United States at 129,615,000. What woman wonders is how many of them believe:
That women are as naturally treacherous as any of the other large cats, that sharpened claws lurk beneath women's gentlest caresses, that they have no sense of honor, that in dealing with them you never know where you are and can't trust them for a minute.
That women are almost senselessly loyal, that they cling to a man long after his other friends have deserted him, that their trustfulness thrives on deceit, neglect and ill-usage.
That women are as stubborn as army mules, that you can't get an idea or a suspicion out of their heads once it has found lodgment, that they are unable even to think of more than one thing at a time, that nobody can tell them anything.
That women are uncertain, vacillating, indecisive creatures, who desire and need a man to make up their minds for them, that they are constantly changing their minds, that they are practically weak-minded.
That they are seething and boiling constantly with emotion, that they settle all problems by their emotional reactions and not by calm judgment, that they melt into a mush of sympathetic sentimentality at utterly insufficient provocation.
That women are naturally cold, that they belong to the hard-boiled sex, that they pass merciless judgments and are much more skeptical and unsympathetic than men.
That women always have their knives into each other, that they instinctively dislike and distrust other women, that "woman's inhumanity to woman makes countless thousands mourn."
That women will not work together—especially on "moral issues"—that they are united in a mysterious sex solidarity, that no man has any chance stacked up against a bunch of women.
That women are all born mothers, never so happy as when they have 10 children apiece.
That women prefer dogs to babies, and sacrifice to their careers their chances of motherhood.
That women work merely in order to kill time until they can marry.
That women, when they marry, refuse to give up their jobs and so take the bread out of the mouths of unmarried workers.
That women are frail, unduly sensitive organisms.
That women can stand pain better than men.
That women are naturally modest and don't like off-color stories.
That women are naturally coarse and tell worse stories than men.
That women are the calm, serene, even bovine conservatives of the world.
That women are restless, erratic and always wanting to try something new.
That women are good cooks.
That women live out of tin cans and delicatessen shops.
That women help their husbands to save money.
That women are so extravagant they ruin their husbands.
That women are unselfish and self-sacrificing.
That women are selfish and ready to sacrifice others for a mere whim.
That women are vindictive and, like the elephant, never forget an injury.
That women dispense an almost divine forgiveness of their wrongs.
That women have no sense of humor.
That women's sense of humor is as sharpened to the point of cruelty.
That women are inferior to men.
That women make men what they are. (Ed. note: And is not the greater necessarily superior to the created?)

The Tailleur Is Firmly Fixed As a Favorite for the Spring

THE tailored suit is firmly entrenched in fashions for spring, and appears in sundry variations that have a distinction of its kind. There is the classic tailleur, the new shorter jacket length, the long coat suit, and the suit with a cape.

The classic tailored suit, always in perfect taste, is something of a fetish with certain types of correctly dressed women, and it will have its many enthusiasts for the season. Models adopted from the O'Rosson style show the three-quarter length jacket with rounded corners and semi-fitted waistline, temptingly simple and with a severity of line that is notably smart. Covert cloth, hairline stripes, or men's wear mixtures are favorite fabrics for its development.

A newer and therefore perhaps more interesting version of the tailored suit is made with a jacket of finger tip length, as shown in the

sketch. Occasionally this small collar gives way to a collarless neckline. With this suit of gray novelty tuxedo is worn a blouse of white silk piping closing in cardigan fashion of an extreme diagonal, a recent feature of suit blouses.

The cape, thus far impressing its importance and exerting an influence upon sports wear, street clothes and evening dress alike, is held in high esteem as a smart addition to the tailleur, having the long coat.

Frequently the cape is a separate garment of the same material that may be donned or doffed at will for the purpose of transforming the suit into an ensemble. More often it is merely a suggestion about the sleeves of the jacket as in the model shown. In this case the cape is cut in one with the yoke and thus achieves a flat back. Covert cloth is lined with white satin for this cape suit, and the latter also makes the overblouse.

SPRING SUGGESTIONS For the AMATEUR GARDENER

HOW TO GROW WALLFLOWERS.

THE deliciously fragrant wallflower with its handsome blooms both single and double in yellows, oranges, velvety browns and crimsons is one of the oldest favorites in cultivation. Unfortunately its lack of hardiness makes it a green house plant in the greater portion of the United States. It may be wintered with considerable success if kept dry and given a covering to keep off the rain in well drained soil and can easily be kept over for early spring bloom in a cold frame.

Spring is the season of the wallflower, but we must be content to have it in the fall if we desire it in our gardens in one season. The strain known as the Parisian extra early will bloom with the chrysanthemums if seed is started early and the fragrant spikes in late fall are very welcome. A new strain known as the Early Wonder, introduced this season, gives us double wallflowers.

Neither is a reliable bloomer the first season, however, unless the seed is sown not later than March. Little bloom will be secured from sowing in the open ground with the hardy annuals, unless the plants are kept over to bloom in the regular spring season. The plant is growing in popularity and the extra trouble of getting them started in a sunny window or cold frame is well rewarded.

These plants demand a soil rich in lime. They will run heavily to leaves in soil lacking it, so lime the ground in which they are to be planted. They do not need overly rich soil and stand considerable drought, but rich soil and moisture to promote vigorous growth will make fall blooming much more certain.

They may be lifted in the fall and potted to bloom in the house if the buds do not show until it seems certain that the killing frosts will cut them down. They stand the transplanting well if a good ball of earth is taken up and they are kept in a cool shaded place for a few days.

Stomach Help To Efficiency

By Chas. A. L. Reed, M. D.

Former President of the American Medical Association.

YOU can't think about what you are doing, or trying to do, and your stomach at the same time. You can't work efficiently, either mentally or physically, if your system is poisoned by the products of defective digestion, whether you know or not that it is defective.

Defective digestion—or "indigestion," as we call it—is the cause of many of the worst ills of civilization, including the grave poisoning of the body known as intestinal toxemia, and it is the result chiefly of eating unsuitable food. Now "unsuitable" is a relative term, and at certain times the stomach is in such a condition that any kind of food is unsuitable. If we are tired or excited, for instance, our digestive processes are very largely suspended.

Animals do not eat when they are tired and excited, with the one exception of the horse. When the horse does this, he either gets acute indigestion and dies, or else gets foundered.

Digestive apparatus, when the body is tired, will not function any better than the hands and feet. You can drive your feet to work when you are tired, but you cannot drive the digestive organs to digest food unless they are in a fit condition. Food placed on the window sill on a hot day will putrefy in a very short time. If the stomach is not in a fit condition to digest it, it will likewise putrefy when placed in the stomach, for the stomach is always as warm as a hot summer day. It is obviously unreasonable to put food in a stomach when it is not going to be digested, but many people do so every day, in spite of the discomfort that follows.

There is a time to eat and a time not to eat. If you eat food when you are very tired you are more liable than at other times to have acute indigestion. If you are somewhat tired you will be more or less disturbed. Now, for the purposes of the stomach, fright and worry are equivalent to tiredness. If you eat when you're frightened or worried, the food either will not digest at all or will be only partly digested. The part which is left undigested tends to putrefaction and, to an extent, may poison you. The poison, if it does not kill you outright, kills the friendly microbes of the bowel. These are indispensable to proper functioning. The first result is constipation. The next result is that part of the poison is absorbed, and poisons the whole system.

It will affect different people in different ways: some may get arthritis, some cancer and some an infectious disease which they would not have caught had they been in proper health.

In other words, you live and have your being primarily through the efficiency of your stomach and digestive system. They are not only your rear guard for protecting your base of supplies, your advance guard protecting you against frontal assaults, but in both instances your first line of defense against invasion by the unseen foes of infection. They, at all times, are the basis and the index of your efficiency.

(Copyright, 1928.)

Halibut Soufflé.

One cup flaked halibut, 1 cup thick cream sauce, 1 stiffly whipped egg whites, 1 tablespoon lemon juice, 1 tablespoon Worcester sauce, salt, pepper, 1 cup buttered breadcrumbs, 2 tablespoons grated cheese. Mix fish, white sauce, lemon juice, Worcester sauce, salt, and pepper together well and then fold in the egg whites. Pour into a buttered casserole, add buttered crumbs and cheese mixed together. Bake in a hot oven until brown. Serve immediately.

ANSWERS TO QUERIES

The Post-Dispatch reserves the right to reject any query. Personal and telephone calls or answers by mail cannot be given attention, except letters on medical questions of undoubted sincerity, when accompanied by stamped addressed envelope.

FOUR GRAPES—Show the delectable "Manufacturers" of the St. Louis telephone directory, which is accessible to all in East St. Louis.

F. E. N.—Fried chicken (Southern style). Clean, singe, and cut in pieces for serving. Two young chickens. Plunge in cold water. Drain but do not wipe. Sprinkle with salt and pepper, and coat thickly with flour, having as much flour adhere as possible. Fry out one pound fat salt pork in pieces, and cook chicken slowly in fat, preferably in covered skillet until tender and well browned. Or, if it comes from the store, fry in fat. Fry out one pound fat salt pork in pieces, and cook chicken slowly in fat, preferably in covered skillet until tender and well browned. Or, if it comes from the store, fry in fat.

ST. CHARLES—Keeping a refrigerator at low temperature is the best method of preserving it. It is recommended that the refrigerator be run at a temperature of 35 to 40 degrees Fahrenheit. This will keep the food fresh and prevent spoilage.

LEGAL INFORMATION

(By a Member of the St. Louis Bar Association)

CONTRACTOR—A permit would depend on all the circumstances. It would be a matter of fact, and the contractor should consult a lawyer for advice.

C. B. M.—The creditors can sue and get judgment and then garnish. It would save you money if you paid the bill before they sue.

ENGLAND—Write to the British Consulate, 208 N. Broadway, St. Louis. Ask them to help you obtain a copy of record of your passport.

READER—"A" and wife could sue "B" if they were sued on the deed of trust notes, by reason of his assuming the deed of trust. "B" should have read the deed of trust before he accepted it.

NAMLESS WRITER—If the sister who died left no will, no husband, no children, no father or mother, or no one to whom the three sisters living would inherit her property in equal shares. Her cousins would not share.

EWETTIE—If the money is in an account owned by the friends as joint tenants, then his relative cannot touch it. Consult a lawyer personally about the injunction suit.

MEDICAL QUESTIONS

Health and sanitation questions of public interest only will be considered. Diagnosis or treatment of individual cases will not be given.

VIC G.—The chief reliance for reducing is diet. A list will be sent a few days for you if you will send stamped address and envelope.

A FRIEND—Information will be furnished by Bureau of Municipal Nurseries, Room 55, Municipal Court Building, 14th and Market streets.

OLD SUBSCRIBER—A tonic such as Overferrin, taken in tablet form, leading a well-regulated life, free from excitement, overwork and worry, should help to overcome your trouble.

purishing, delicious and so easily made!
wonderful drink for children!

Instant Postum in a cup, pour hot (not boiled) milk, stir, and sugar to taste—this wholesome drink is ready! A drink that children like—even children who don't like milk alone. And it eliminates the danger of caffeine, the beverage drug that yearly takes its toll of health and happiness. There is not the trace of a drug in Postum!

Your grocer has Instant Postum. Order it today—serve it to your children tomorrow! And try yourself—made with either milk or boiling water. Better still, make Postum your mealtime drink for thirty days. Then judge its benefits to your health! You never want to go back to mealtime doses of caffeine!

Instant Postum is a delicious, healthful, and easy-to-make drink. It is made from a decaffeinated wheat product and is a perfect substitute for milk in many recipes.

U.S. ACCEPTS MEXICAN LAW OF THE LAND; OIL FIGHT SETTLED

Calles Rescinds 50-Year Restriction—Valid Titles Not to Be Canceled for "Concessions."

WEATHER YIELDS VITAL PRINCIPLE

Surface Rights Do Not Include Minerals, Title to Which Must Be Proved in Each Case.

INFORMATION obtained during a visit in Mexico City enabled Walter Lippmann, publicist and chief editorial writer of the New York World, to write the following article several days ago, its publication to be deferred until negotiations were officially complete. Publication is now authorized. Mr. Lippmann is back in the United States.

By WALTER LIPPMANN, New York World.

At the end of a controversy which, for more than ten years, has endangered peaceable relations between Mexico and the United States, the oil companies have until now, 12 next to make up their minds whether they will accept the amended law and regulations, or there is little doubt the United States Government has made up its mind that the law and regulations protect every legitimate American right.

It may be assumed that henceforth the oil companies must either accept the law, or if they choose to fight it, they must do so without the moral support of the Government.

The result has been reached by President Calles and American Ambassador Morrow in negotiations covering a period of about four months. In that period no notes have been written, but there have been an exhaustive and painstaking re-examination of the whole question and protracted personal consultation.

Questions of principle have been dealt with by Calles and Morrow. Technical matters have been dealt with by Reuben Clark, Salt Lake City, a member of Ambassador Morrow's staff, and officials of the Secretary of Labor Morrow's department. There has been constant consultation with representatives in Mexico of the oil companies.

T. S. Demands Modified. The upshot of it all is that the Mexican law and regulations have been amended in certain important respects, and the demand of the United States Government have been modified. Neither Government has yielded on vital principles. Both Governments have yielded on matters which were ill-considered, negotiating and of no real value to Americans. The result is neither a bargain nor a compromise. It is an understanding reached by modifying the accumulated controversy of a decade.

U. S. INDICTS TWO
CHICAGO OFFICIALS
IN BOOTLEG PLOT

Alderman and Park Commissioner Among Ten Accused in Alleged \$5,000,000 Ring.

UNDERCOVER MEN
ON TRAIL SIX MONTHS

Evidence Obtained Also Against Policemen, Politicians and Dry Agents Who Got "Cut."

By the Associated Press. CHICAGO, March 28.—Titus Haffa, Chicago Alderman, and nine others, including a former member of the Lincoln Park Board, were indicted by the Federal grand jury today on charges of conspiracy to violate the prohibition laws in what the Government charges was \$5,000,000 alcohol ring which has been flooding Chicago and the Middle West with illicit liquor.

The indictments, which the Federal agents said would result in an expose of graft and corruption involving the police, politicians and prohibition agents, were returned after six months of investigation by undercover agents brought here last October at the request of George E. Q. Johnson, United States District Attorney.

Among those indicted with Haffa is Albert P. Bauer, former Lincoln Park Commissioner, who, Federal men indicated, was confessed. The undercover agents gained the indictments after six months of investigation by undercover agents brought here last October at the request of George E. Q. Johnson, United States District Attorney.

Among those indicted with Haffa is Albert P. Bauer, former Lincoln Park Commissioner, who, Federal men indicated, was confessed. The undercover agents gained the indictments after six months of investigation by undercover agents brought here last October at the request of George E. Q. Johnson, United States District Attorney.

ILLINOIS COAL
OPERATORS INSIST
ON WAGE CUT

Association Threatens to End Relations With Union April 1 Unless Scale Is Reduced.

\$6 A DAY OFFER
WILL BE RENEWED

Men Demand \$7.50 on Jacksonville Schedule; Owners Ready to Arbitrate.

By the Associated Press. CHICAGO, March 28.—The Illinois Coal Operators' Association announced today that it would not continue relationship with the United Mine Workers after April 1 unless the union agreed to wages lower than those of the Jacksonville scale, which the miners insist must be continued.

The operators' association will renew its offer of a wage of \$6 a day for day labor and 84 cents a ton for tonnage men, Rice Miller, retiring president, stated. The union demand is for \$7.50 a day and \$1.48 a ton. All of these features are base pay, and wages for various classes of workers range upward under the two scales.

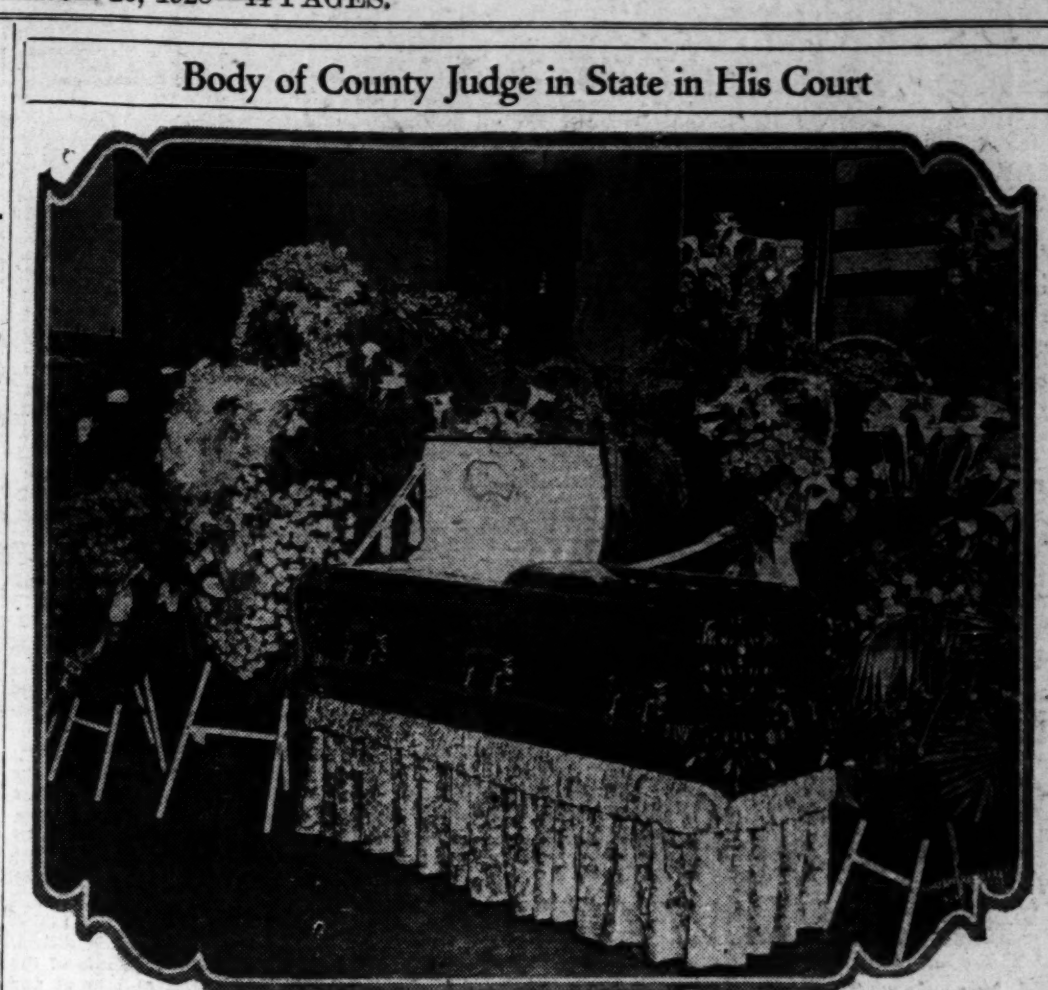

Many of the Illinois miners now are working under a temporary agreement with the miners. It expires on April 1. The first anniversary of the general shutdown in the union bituminous fields, a general cessation of operations April 1 in Illinois is anticipated, said Miller. Operators insist, he continued, they cannot afford to maintain the high wage scale, and they have grown weary of hoping that the United Mine Workers will consider a lower scale.

The association elected W. J. Jenkins of St. Louis, President of the Illinois Coal Operators' Association. The association still stands ready to arbitrate with the miners, Miller, speaking for Jenkins, asserted.

STOCKS SOAR AGAIN
ON NEW YORK MARKET

Third Successive 4,000,000 Share Session, and Fourth in History; Radio Up and Down

By the Associated Press. NEW YORK, March 28.—Stock market bulls continued to charge ahead today in the third successive 4,000,000-share session, and the fourth in history. Enormous buying of Continental Can developed in the last few minutes, carrying it up \$11.50 a share to \$110. Copper issues, such as American Smelting, Greene Cananea and Calumet and Arizona, advanced \$5.50 to \$5.50 and Warner Bros. "B" stock was up \$2.12 1/2 at \$35.50. Radio sagged \$9 from its high price of the day, but closed at \$167.50 and General Motors closed \$4.25 below yesterday's last quotation.

American Smelting suddenly came to the fore by climbing \$6 a share to \$190.50, the highest price ever recorded. New York Central and Montgomery Ward also moved into new high ground as "bear" traders bent a hasty retreat.

With many issues selling on the floor several points higher than the prices appearing on the tape, large and small traders who watched the tape in brokerage houses were again taken off their feet by the fresh outbreak of bullish enthusiasm.

Several of the old favorites, including General Motors, Radio and United States Steel common, faltered at the outset, but their places at the head of the "bull" parade were taken by new leaders in the railroad, can, tobacco and oil groups.

Record high prices were established in the first few minutes of trading by New York Central, General Electric, American Can, Continental Can, Commercial Solvents and Sinclair Oil, the gains ranging from a few cents to \$4.25 a share. Pan-American B quickly advanced to \$250 a share in reflection of the new Mexican oil regulations.

HOW LITTLE USE
A CHICKEN MAKES
OF AN EDUCATION!

Vaudeville Bird Walks Into Arms of Negro Looking for Dinner, but Escapes.

John Thomas Jones, a Negro who lives at 2805 North Tenth street, was on his way home Sunday evening after a sunning on the levee when the raw material for a chicken supper appeared right in front of him. It was really a little to one side—in an alley to be specific. The closer he got to the chicken the more it impressed him. This was no ordinary poultry—that was certain. He "spoke" to it, and received a chic little jerk of the feathered head for answer. He reached down his hands to it, and lo! instead of rejecting his advances this strange fowl actually came toward him!

The dumfounded Negro realized behavior like this was beyond his knowledge, but didn't wait for a second invitation to tuck it under his arm. As the two departed briskly, the chicken's owner, a showman, came out of an alley doorway with a tidbit for the abducted one—the pride of his trained vaudeville brood, left outside for air and exercise. Trailing the kidnaper, he called Patrolman Theodore Roese of Central District, who overtook Jones at Seventh and Pine streets, and gave the chicken back to its owner.

In Police Court yesterday Judge Roese, allowing he said for the Negro's "natural inclination to give a stray chicken a permanent home," stayed a \$5 vagrancy fine pending good behavior.

Jones, who works every day as a shearer in a metal foundry, still thinks the chicken, education and all would make good in the pan.

Record high prices were established in the first few minutes of trading by New York Central, General Electric, American Can, Continental Can, Commercial Solvents and Sinclair Oil, the gains ranging from a few cents to \$4.25 a share. Pan-American B quickly advanced to \$250 a share in reflection of the new Mexican oil regulations.

HUNDREDS PAY
FINAL TRIBUTE TO
J. W. McELHINNEY

Veteran St. Louis County Jurist Lies in State in Court at Clayton While Friends File Past.

Hundreds of persons paid their last respects to John W. McElhinney, Circuit Judge in St. Louis County for 27 years, as his body lay in state in his courtroom at Clayton Courthouse this morning.

They passed through the dimly lighted chamber at the rate of 150 or more an hour for more than four hours. Noted lawyers in the community, elderly attorneys who had tried their first cases when Judge McElhinney was new on the bench, farmers from distant sections of the county, Negro women who had had litigation in this room, ministers, politicians, men who know the ways of bootleggers and gamblers, business men, women voters, county employees—all paid final tribute to a jurist who was noted for his fairness, honesty and human kindness.

Flowers were in the room in great volume, obscuring the jury box, rail and other fixtures. The bar space was occupied almost entirely by these remembrances, which also extended over the spectators' seats.

Most of the employees of county offices, including courthouse janitors, sent flowers. Other wreaths and elaborate floral pieces included tokens from the old Mount Olive Seegerbund, a singing society to which the Judge belonged, which has been defunct 25 years; local Amherst College alumni, the County Bar Association, represented by the scales of justice in roses, and the Circuit Clerk's office.

Bench and Chair Draped. The bench and empty judicial chair were draped in black, and over them hung the national flag. In the accustomed place, County members of the American Legion, in civilian clothing but wearing ceremonial overseas caps, constituted a silent guard of honor. Martin Walsh, the courtroom bailiff, also stood beside the bier, which was in front of the bench. County officials stood in a double line along the walk when the casket was carried into the courtroom.

\$325,000,000
FLOOD BILL
IS PASSED BY
THE SENATE

Compromise Measure to Pay Entire Cost From Federal Funds Rushed Through in Hour.

PROVIDES FOR WORK FROM CAIRO TO GULF

Action Unanimous—Proposal Now Goes to House Where Fight on Program Is Expected.

By CHARLES G. ROSS, Chief Washington Correspondent of the Post-Dispatch.

WASHINGTON, March 28.—With a speed rarely if ever equaled by it in the disposition of a measure of such magnitude, the Senate this afternoon, after an hour's discussion, passed, by a vote of 70 to 0, the rewritten Jones flood control bill, authorizing an expenditure of \$325,000,000 from Federal funds for the harnessing of the lower Mississippi River.

The only discordant note was sounded by Senator King (Dem.) of Utah, who was unable to vote because tied up in a pair. King said that if he had been permitted to cast his ballot, he would have voted no. The discussion had shown, he said, that the contemplated project ultimately might cost a billion dollars, and he felt, therefore, the bill should not have been brought to a vote without further discussion.

Vote Comes Suddenly. The vote came suddenly after a speech by Senator Jones (Rep.) of Washington, chairman of the Commerce Committee, in explanation of the bill. Other interested Senators had put their views into the record.

When Jones at dawn, Senator Fess (Rep.) of Ohio, a Republican regular, said that if the bill attested the Senators from the states that were flooded last spring, he was ready to vote for it.

Various Senators replied that while the bill was not entirely satisfactory to them, it represented a reasonable and workable compromise of conflicting views.

Cries of "vote" immediately went up. Two minor amendments agreeable to Chairman Jones were snapped through without debate, and the vote on the passage of the bill followed immediately.

WHY TRY TO FIND EXCUSES HIM? HE ISN'T WORRIED! WHY I EVEN THINK ABOUT MATTER? I WON'T! THAT'S SETTLED. I WONDER IF THAT MI WHO RUBBED HIS FAT HANDS GEORGES EYES REALLY DID NOTIZE HIM? LET ME K... HOW SILLY! SUCH NIGS DON'T HAPPEN... STILL... LET ME THINK.
